

# DOG FIRST AID TASMANIA

IF YOUR DOG WAS INJURED,  
WOULD YOU KNOW WHAT TO DO?

## DOG FIRST AID WORKSHOPS

**Qualified Veterinarians will be conducting these workshops explaining how you can apply First Aid to sick and injured dogs.**

We will look at the signs and symptoms of the most common issues vets see with dogs and what to do in each situation such as:

- Handling an emergency
- Handling distressed animals
- Signs of shock and assessing the patient
- Snake bites & other bites and stings
- What to do if a dog is hit by a car
- Control bleeding & bandaging
- Pain
- Fight wounds
- CPR
- Fractures
- Choking
- Poisoning
- Heat stress
- Burns

**AND MUCH MORE**

### Quotes from participants as seen on Facebook

*“Thank you so much for organising the workshop. The organisation and the presentation were both particularly well done, and much appreciated. So many great pieces of advice about when to call or get to a vet, and what is possible or appropriate to do in the meantime”*

*An amazing, well organised course. Very informative for both dog guardians and dog professionals. I hope I never have to use most of what I learned but will be prepared if I ever do. Thanks Marea and team*

### WORKSHOP VENUE& DATE

Hobart, Saturday, March 14<sup>th</sup> booking at  
<https://www.trybooking.com/605115>

Hobart, Saturday, April 18, 2020 booking at
