VALUE STATEMENT FOR CONTACTORS

Contractors will find unique value with Genesis Consultants Hawaii in a variety of ways. GCH Facilities goes beyond engineering. We:

- give the Contractor the competitive edge over their rivals;
- present best value when working with Owners and Engineers (and other Contractors);
- seamlessly integrate energy efficiency with financial outcomes.

CONTRACTORS

GCH gives Contractors an impartial, professional resource to liaise between sub-Contractors and Engineers. This allows the Contractor to focus on their core business while a trusted partner keeps their subs aligned and focused.

Partnering with GCH also allows Contractors the means to present unique value. GCH can help Contractors grow their business without taking on expensive overhead. This translates to more revenue and wider margin.

Contractors bidding on Government contracts know the Government speaks a different language. This is especially true of the Department of Defense and the Military Services.

When in a competitive bid situation, Prime Contractors will find GCH a valued partner in securing an advantage over their competitors. GCH has 15 years of Federal Government civil service experience, the Founder is a graduate of the Naval War College and is very familiar on what drives military leadership decision making.

As a Minority-Owned, Small Business registered with the Small Business Administration, you can count on GCH as part of your Small Business component.
