**Subject:** Call with Frank Jaksch and Will Black re pricing

Livecell – not a long term relationship; [REDACTED] cost to CDXC for NR last year (when doing handshake deal with Livecell that went down to \$700/kg); never placed an order at the low price, but “most of the stuff was in the \$900 range – they may have gotten lower than that number, with some volume at \$800”

Today, CDXC is in the [REDACTED] range in NR cost/kg

Will honor \$800/kg today for Elysium order and will re-evaluate the entire agreement in Q3, with Elysium getting more defensibility but with Elysium agreeing to potentially higher prices.
