Subject: Combination Exclusive

Hi Dan – I hope I am not out-of-line but I wanted to take another crack at the combination exclusive which will also address the grandfathering – I refuse to give up. As we discussed, the following was agreed to regarding the collagen combination. For better or for worse, we have these terms to begin with when creating additional combination exclusives:

Year 1: \$2 million take or pay; \$3 million minimum
Year 2: \$3 million take or pay; \$5 million minimum
Year 3: \$3 million take or pay; \$15 million minimum
Year 4: Negotiated in good faith

The one pterostilbene combination product that is scheduled to launch is from F1RST which is an exclusive brand for GNC. They did take material but the combination product is not advertised on the website --- <http://f1rstquality.com/>. It is possible that the first small run was manufactured. If this is the case, then we would absolutely not allow subsequent production and completely seal the market to Elysium.

The officers have backed off the collagen terms a bit. We would like to propose the following for the pterostilbene combination exclusive:

Year 1: \$500,000 take or pay; \$3 million minimum
Year 2: \$2 million take or pay; \$5 million minimum
Year 3: \$3 million take or pay; \$10 million minimum
Year 4: Negotiated in good faith

Please provide your feedback and let's see if we can get this to work. Sincerely, Mark
