## WINNER OF COFFEE TALK'S SPRING CONTEST

Congratulations to the winner of our spring contest, Diane Courtoirille! Diane correctly guessed all 5 of the locations we had taken pictures of around town, but the May 3rd slip we drew is what won her the prize. Diane said she loves to do contests, so this was right up her alley!

Diane took home a handmade flower box, beeswax candles, bathroom spray, and lotion, made by the Coffee Talk's very own Kelsey Roberts and Sarah Neale. Thank you to everyone who participated in our contest!

## FIRE DEPARTMENT CLEANS SKATE PARK

On Monday, May 8th, in between performing controlled burns, members of the Chetwynd Volunteer Fire Department took some time to wash the local skate park to rid it of dust, dirt, and rocks that had accumulated over the winter. The result was a cleaner, safer and more enjoyable place for local kids to ride and skate.

## FORT ST JOHN SCHOOL PUT UNDER PRECAUTIONARY HOLD DUE TO POLICE SITUATION

The North Peace Secondary School in Fort St John was placed on a precautionary hold and secure on May 11th due to a police situation. Sgt. Dave Tyreman says RCMP received a report of three teen males and a teen female walking southbound on 86th Street near the school. One of the callers said they believed one of the teens had something concealed under their coat. Officers

attended the area to search for the group of teens, all while keeping in contact with the school to make sure everyone was safe and no one was allowed in or out. Mounties eventually located the suspects near Toboggan Hill Park and discovered that one of the teens had an axe concealed underneath their jacket. The investigation into the incident is still continuing.

## RECOMMENDATIONS FOR PERSONAL SAFETY AROUND FLOOD WATERS

Inclement weather is expected in many areas of British Columbia, leading to increased water levels in the coming days for the province's rivers, lakes and streams. Environment Canada forecasts severe thunderstorms for the Central and Southeast regions of the province with strong southerly winds. Up to 25 millimetres of rain is expected, with more precipitation forecast for Friday and Saturday.

There is a high potential for additional flooding and the potential for landslides. The Province is recommending that homeowners and first responders should use caution and familiarize themselves with working around water:

- Stay as far away from flood waters as possible and exercise extreme caution when driving.
- Drivers should go to [DriveBC.ca](http://DriveBC.ca) for up-to-date information on road conditions and closures.

### Working around water

Freshet and flood conditions can present any number of hazards from road washouts and undercut banks to structural failures and contamination. If you live near a waterway or are preparing for or may be subject to responding to flood-damaged areas, however, the first line of defence is to avoid putting yourself in hazardous or life threatening situations.

Any patrols, assessments or required emergency work should only commence during daylight hours as this will:

- Allow workers to monitor upstream hazards and better assess values lost and at risk.
- Support, monitor and assist others in unforeseen events that may occur.
- Allow for any rescue operations to be undertaken with worker safety in mind.

Working around moving water should be avoided as much as possible. Only work for the purpose of saving lives, protecting critical infrastructure or preventing significant property damage should be considered.

### Driving and flooding

Standing water may be encountered on flooded roads or properties. Water can obscure conditions beneath the surface and driving through flooded areas should be avoided. Walking through flooded areas should also be avoided as flood waters may present various forms of contamination such as sewage, fuels or pesticides.

Floodwaters can quickly wash out roads and bridges. That's why it is important to be prepared and plan out an alternative route. Check [drivebc.ca](http://drivebc.ca) for the latest road conditions and Emergency Info BC for up-to-date flood information.

Motorists should consider the following tips when travelling through flood-prone areas:

- If you find yourself on a road that's flooded or marked closed, don't continue. Turn around and use another route. Just six inches of moving water can sweep you off your feet and as little as two feet can carry away most vehicles.
- If you have no choice but to drive into water, drive slowly and cautiously. Watch carefully for signs of a moving current that may impact the safety of the road ahead.
- If your vehicle stalls on a flooded stretch of road, be prepared to abandon it and retreat to higher ground.
- Don't try to retrieve vehicles from flooded areas until it's safe. Wait for the water to recede.
- Pack a vehicle emergency kit for your car, and store an extra pair of comfortable shoes, a waterproof jacket and important medications.
- Keep up to date with weather forecasts and road information.
- Watch for traffic personnel and obey flaggers.

As a Speech therapist, I was working with a preschooler on body-part identification and the k sound.

To that end, I had him use Play-Doh to make a sculpture of me.

"Is that my neck?" I asked, trying to get him to repeat the word.

"No, that's your chin," he said. He added more Play-Doh. "Is that my neck?" I asked. "No, that's your other chin."

# >> >> DON TITUS MONTESSORI SCHOOL << <<

Everything you wanted to know, but were afraid to ask....

What is 'Montessori'? Montessori is a system of education for young children that seeks to develop natural interests and activities rather than use formal teaching methods

Here are some answers to common follow-up questions...:

- **NO**, 'Montessori' is not Latin for 'beatnik' (it is the name of the founder, Ms. Maria Montessori)
- **YES**, students must follow the BC Curriculum (and are encouraged to surpass their grade level!)
- **NO**, it is not a private school (and that's rare - most schools are private and highly competitive!)
- **YES**, all students K-7 in Chetwynd are welcome (and busses deliver from anywhere in Chetwynd!)
- **YES**, students transition into high school without issue (they have learned to be adaptable!)
- **YES**, there are animals in the classrooms - fish, hamsters, guinea pigs, and right now K-1 are raising their own butterflies (well, hopefully- just caterpillars now!)... Horses, goats, rabbits, snakes and chicks (some hatched in class!) have also dropped by for visits.

Make an informed decision  
about your child's education!
