**WORLD  
SUICIDE  
PREVENTION  
DAY**

*"Every day, we lose many lives to suicide, and many more are profoundly impacted by their deaths. We acknowledge all who experience the challenges of suicidal ideation, and those who have lost loved ones through suicide."*

Today it is "World Suicide Prevention Day" and I think we can all say we know or have known someone who suffers from mental illness, and maybe even someone who has committed suicide.

Joining together is critical to preventing suicide. Preventing suicide requires the efforts of many. It takes family, friends, co-workers, community members, educators, religious leaders, healthcare professionals, political officials and governments.

Suicide prevention remains a universal challenge, sparking the decision to create a day of national awareness back in 2003. Every year, suicide is among the top 20 leading causes of death globally for people of all ages. It is responsible for over 800,000 deaths, which equates to one suicide every 40 seconds. In BC, in 2017, there were 572 deaths by suicide, and statistics show that men account for approximately 75% of that number.

Every life lost represents someone's partner, child, parent, friend or colleague. For each suicide approximately 135 people suffer intense grief or are otherwise affected. This amounts to 108 million people per year who are profoundly impacted by suicidal behaviour. Suicidal behaviour includes suicide, and also encompasses thoughts of suicide and suicide attempts. The staggering fact is that for every suicide, 25 people make a suicide attempt and even more have serious thoughts of suicide.

Northern Health has year after year consistently ranked the number one region for the highest rate of suicide in the province. This goes to show that these are our neighbours, relatives, even our own children could be struggling. We have to do our part to notice the signs of suicidal behaviour and educate ourselves and others about the causes of suicide and warning signs, show compassion and care for those who are in distress in your community. And most importantly question the stigma associated with suicide, the behaviour associated and mental health problems in general.

Preventing suicide is often possible and you are a key player in its prevention! You CAN make a difference – as a member of society, as a child, as a parent, a friend, a colleague or as a neighbour there are many things that you can do daily, and also on World Suicide Prevention Day (WSPD) to help those around you or yourself, by seeking help if you feel like you need it. Never be ashamed of asking for help!
