## Public Service Announcement

Northern Health COVID-19 Alert – Northeast BC  
 COVID-19 testing and contact tracing has allowed Northern Health to identify a recent event in Alberta where individuals may have been exposed to COVID-19. Individuals who attended the It Is Time Canada event in Deadwood, Alberta, between July 30 and August 2, are asked to self-monitor for symptoms of COVID-19, and self-isolate and seek testing if they begin to exhibit symptoms.

Contact tracing and testing has also identified that some individuals may be at risk of secondary transmission, from contact with cases related to attendance at the event.

NH public health has identified 17 lab-confirmed cases to date; 10 of which remain active cases (seven recovered); 12 of the total number are related to attendance at the event, while the remainder are believed to be from secondary exposure.

Contact tracing has also identified a number of close contacts, 24 of whom are in selfisolation with active daily monitoring by public health. The majority of these cases are in the Fort St. John area, however the exposure alert applies to all of Northeast BC.

Given the location of the event, it is most likely that residents of Northeast BC may have been in attendance, or had contact with attendees. Northeast BC residents are strongly encouraged to self-monitor, and self-isolate and seek testing if they have any COVID-19 symptoms.

Public health contact tracing continues, and where possible, NH is reaching out directly to individuals who may have been exposed. Individuals seeking a test should

call their primary care provider (family physician or nurse practitioner) or the NH COVID-19 Online Clinic & Info Line (1-844-645-7811).

### Chocolate covered Peanuts

A tour bus driver is driving with a bus load of seniors down a highway when he is tapped on his shoulder by a little old lady. She offers him a handful of peanuts, which he gratefully munches up. After about 15 minutes, she taps him on his shoulder again and she hands him another handful of peanuts. She repeats this gesture about five more times. When she is about to hand him another batch again he asks the little old lady, 'Why don't you eat the peanuts yourself?' 'We can't chew them because we've no teeth', she replied. The puzzled driver asks, 'Why do you buy them then?' The old lady replied, 'We just love the chocolate around them.'

## 5 reasons to renovate your home in the fall

Although most home renovation projects can be undertaken at any time of the year, there are numerous advantages to starting them in the fall. Unless you need to deal with urgent repairs, here are five reasons it's best to renovate in autumn.

### 1. IDEAL TEMPERATURES

Unlike the weather that's typical in winter and summer, the coolness of fall offers optimal working conditions for most renovation projects.

### 2. PROMPT SERVICE

Since the demand for home maintenance work tends to diminish at the end of summer, contractors and tradespeople are more readily available in the fall. This means shorter wait times for service.

### 3. LOWER COSTS

Given the decrease in demand at this time of the year, some

home renovation companies reduce their prices in the fall, which could allow you to enjoy considerable savings.

### 4. SIMPLER LOGISTICS

The influx of workers, temporary loss of living space and ubiquitous layer of dust that come with a major renovation will be much less inconvenient once your kids have returned to school in the fall.

### 5. WINTER PREPARATIONS

If you complete projects like replacing windows, improving insulation and upgrading the heating system in the fall, you can make sure your home is ready for winter. Plus, you'll have a stylish new space for the holidays.

In addition, postponing your renovation projects until the fall will allow your family to enjoy backyard summer weather without the constant noise and bustle of a major renovation project.

Once upon a time there lived a lion in a forest. One day after a heavy meal. It was sleeping under a tree. After a while, there came a mouse and it started to play on the lion. Suddenly the lion got up with anger and looked for those who disturbed its nice sleep. Then it saw a small mouse standing trembling with fear. The lion jumped on it and started to kill it. The mouse requested the lion to forgive it. The lion felt pity and left it. The mouse ran away. On another day, the lion was caught in a net by a hunter. The mouse came there and cut the net. Thus it escaped. There after, the mouse and the lion became friends. They lived happily in the forest afterwards.
