## Peace Motocross Association

### Finale At Chetwynd's Pine Valley Raceway

The rain managed to hold off for an entire weekend of dirt flying and the intoxicating aroma of dirt bike exhaust.

Racers came from all around to take part in the PMA 2019 finale race weekend. From the kids on 50cc bikes right up to the adult racers clearing the huge table top jump.

Vendors and campers were packed in and set up around the entire Pine Valley grounds, and the new playground seemed to be a huge hit for the non riding family members.

Are you new to town and enjoy dirtbiking? You too can become a member and ride the track by checking out their Facebook page "Chetwynd Motocross- Pine Valley Raceway" and contacting Pine Valley Motocross President Jason Berlinger.

## Fall gardening: best bulbs to plant

With the arrival of fall, gardeners should start preparing their yards for winter and spring. For most, an important task is to plant their spring-blooming bulbs. Here are some of the hardiest types.

• **Crocuses.** This will be one of the first to bloom in your spring garden. Choose from a variety of species in different colours and sizes, and plant them in a spot that gets partial or full sun.

• **Daffodils.** These spring flowers will grow back year after year with little help from you. Plant them in partial shade or full sun for best growing results.

• **Alliums.** This ornamental variety of the onion family produces big purple balls of blooms. They love the sun and will return every spring.

• **Tulips.** These blooms come in a variety of shapes, colours and sizes. They do best when planted in areas with partial shade or full sun. They're perennials, so you won't need to plant new bulbs every year.

To ensure they take, bulbs should be planted before the ground freezes but only after the weather is reliably cool. For a spring garden that's continuously in bloom, be sure to plant bulbs that flower at different times during the season.

## A brief introduction to canning

Do you have more produce on hand than you know what to do with? If so, canning is a great way to make sure your food keeps all winter long.

### PREPARING FOOD FOR CANNING

Here are some ways of preparing produce before it goes bad.

- **Cooking.** Turn your fruit into jam, make tomato sauce or blanch your vegetables before canning them.
- **Pickling.** Vinegar helps produce become acidic enough to be canned in a water bath. Try cucumbers, carrots, green beans or even peaches in a brine of vinegar and water.

### METHODS OF CANNING

Home canning involves using sealed glass jars to conserve your food. There are a couple of ways to do this.

- **Water bath canning.** This method uses boiling water to heat jars and seal them. Only foods with high acidity like berries, pickles and tomatoes can be safely canned this way.
- **Pressure canning.** This technique involves using high temperatures to can meat and vegetables that aren't acidic enough to be safely water canned. You'll need a pressure canner, which is similar to a pressure cooker.

No matter what canning method you use, make sure to sterilize your jars and always use rings that are free of rust and lids that are brand new.

## 5 tips for a successful black bear hunt

If you're a big game enthusiast, hunting black bear may be a priority. Follow these five tips to ensure your bear hunting expedition is a success.

### 1. CHOOSE YOUR SITE CAREFULLY

Bears are especially active around dawn and dusk and often use the same trails. Look for signs of their passing, then set up your lookout according to their comings and goings. Near a waterhole or at the top of a hardwood-covered mountain are likely to be good choices.

### 2. PLACE YOUR BAIT STRATEGICALLY

Attract bears with an odour bomb attached high up in a tree and orient your bait so that you have the optimal firing angle to hit the vital part of the bear.

### 3. INSTALL YOUR LOOKOUT IN THE RIGHT PLACE

A bear's sense of smell is very sensitive. To avoid being noticed, stalk your target in a tree stand that's at least three metres (10 feet) high and 20 metres (65 feet) away from your bait.

### 4. AVOID MAKING NOISE

Bears have very fine hearing. Guard against sudden movements and the crinkling of clothing. In addition, protect yourself from flies and mosquitoes by using electronic devices or a mosquito net jacket. Otherwise, you may move with each bite and risk alerting your target.

### 5. SHOOT AT THE RIGHT TIME

When a bear shows up, be patient. Wait until it feels comfortable and settles down to eat. It will then be stationary, which will allow you to take a more precise shot.

# NOW HIRING

Listed on the TSX, West Fraser is a leading diversified North American forest products company. Rated as one of Canada's Top 100 Employers for six years, we are a growing company looking for talented people to be part of our team. Our Chetwynd Forest Industries Division has opportunities for the position of:

- **General Labourers**
- **Millwrights**
- **Electricians**
- **ForkLift Drivers**

### Our ideal candidates will possess:

- A grade 12 diploma
- Strong interpersonal and communication skills
- Strong commitment to safety
- Our West Fraser values (including integrity, humility, teamwork, frugality, innovation, competitiveness, and respect)
- The desire to learn, grow and succeed
- Industrial experience and post-secondary education would be considered an asset

Chetwynd is a growing, family-friendly community located on the eastern foothills of the Rocky Mountains and offers excellent year round recreational activities. Our mill and forest operations form an integral part of the community, providing economic stability to employees and families that live in the Chetwynd area. To learn more visit: <http://www.gochetwynd.com>

If this position sounds like the career for you, submit your application at [www.westfraser.com/jobs](http://www.westfraser.com/jobs) click "apply now" in green at the top of the page.

For more information on West Fraser and our current opportunities, visit our website at:

[www.westfraser.com/jobs](http://www.westfraser.com/jobs)

resumes can also be emailed to [chetwynd@westfraser.com](mailto:chetwynd@westfraser.com)

*We thank all candidates for their interest; however, only those selected for an interview will be contacted.*
