## **OIL PRICES ARE UP!**

According to an article from CBC, The Organization of the Petroleum Exporting Countries (OPEC) has come to a deal to limit crude oil output; and because of the groups decision, oil went up 6% as of yesterday.

Brent Crude has risen to \$2.76, at \$48.73 a barrel.

The OPEC has limited their production by 750,000 barrels less than August to only produce 32.5-million barrels a day. This is apparently the first deal to limit output since 2008.

## STATEMENT BY MP ZIMMER REGARDING APPROVAL OF PACIFIC NORTHWEST LNG PROJECT

Bob Zimmer, Member of Parliament for Prince George-Peace River-Northern Rockies issued the following statement regarding federal government approval of Petronas-led Pacific NorthWest LNG project:

"I am very pleased with this decision which brings this important project for our region one step closer to becoming a reality. We will now await Petronas for their final investment decision.

"The Pacific NorthWest LNG project, which has gone through – and passed – a highly rigorous environmental review process, will create thousands of highpaying jobs in British Columbia and in Canada, billions of dollars in tax revenue, and will help to reduce global pollution.

"I also want to congratulate all those who worked so hard to ensure that the voices of 'yes' continued to be heard throughout this process. Never before have I witnessed such grassroots, community involvement in a federal decision as I did in our region this year. From the truck rallies, to the petitions, to the letter writing campaigns, to the LNG or Bust road trip, there is no doubt that residents

demonstrated their strong support for LNG projects in our region."

October is crisp
days and cool
nights, a time to
curl up around the
dancing flames
and sink into a
good book.

## **OLD GROWTH FORESTS** ARE IMPORTANT FOR **ENVIRONMENT AND ECONOMY**

VICTORIA – In response to UBCM Resolution C-27, Forests, Lands and Natural Resource Operations Minister Steve Thomson re-affirmed government's commitment to Vancouver Island's old growth forests and stated there was no need to cease logging.

The province's old growth forests, including those on Vancouver Island, are managed for a multitude of resource values. There's approximately 1.9 million hectares of Crown forest land on Vancouver Island, and over 840,000 hectares of that is considered old-growth. Over half of those old growth forests will never be logged.

The Vancouver Island Land Use Plan designated areas for protection and areas suitable for resource development, including forestry. Over 13% of Vancouver Island's land base is fully protected from development.

The Province sets aside old growth forest areas in recognition of their biodiversity values, including providing habitat for wildlife. The Province targets protection of old growth forests in each landscape unit. In addition to parks and protected areas, old growth forests are protected through old growth management areas, wildlife habitat areas, ungulate winter ranges.

Some Vancouver Island communities value old growth forests for their tourism values, and in 2012, the Province specifically established an old growth management area for Avatar Grove near Port Renfrew.
