## 3 Smart Back-To-School Wellness Tips

It can be hard for kids and parents to get used to a new sleep schedule and daily routine this time of year. Check out these tips to keep your body healthy and your energy levels at their peak.

Eat your breakfast. It's always a good idea to start your day off right with a healthy, nutritious meal. When you skip breakfast, you're missing out on a lot of great benefits, including maintaining a healthy weight, better appetite control, increased energy and greater concentration. Breakfast also gives you a chance to get in important vitamins and nutrients – such as calcium, vitamin D and fibre – from healthy foods like grains and fruits.

So, how to make a quick and healthy breakfast when you're on the go? Try these quick and easy ideas:

Make oatmeal with milk or a dairy alternative. Top with fresh fruit, nuts and seeds.  
Layer plain dairy or plant-based yogurt with your favourite low-sugar cereal and blueberries.  
Add lean ham and low-fat cheese to a toasted whole grain English muffin.  
Top a slice of toast with avocado, nut butter and banana or yogurt and peach slices.  
Blend a breakfast smoothie with dairy or plant-based milk and frozen fruit. Try adding greens, nuts, seeds and protein powder for a balance of carbohydrates, healthy fats, protein and fibre.  
Make your breakfast the night before. Try overnight oats and chia-seed pudding.  
Keep hard-boiled eggs, whole fruit and trail mix on hand to grab and go.

Try a probiotic. Probiotics are live bacteria and yeast that are good for your overall health, especially your digestive system. While we usually think of bacteria as being bad for you, the human body is full of them – both good and bad. Probiotics are known as good bacteria because they help keep your gut flora healthy. Regular consumption of probiotics has been shown to help treat and prevent gastrointestinal issues, including acute or antibiotic-associated diarrhea.

Think zinc. Zinc supplements — especially the type called “zinc picolinate” — can help maintain your immunity during cold and flu season, especially if you take it as soon as you first start showing any symptoms.

## Get Ready For Winter Without Breaking The Bank

Doing a little work during the fall can help you save time, money and headaches down the line by preparing for winter. Here are some tips to get started:

Tasks around the house. Some maintenance items you may not be able to do on your own, but you can save money by doing the easier tasks yourself. Simple chores include checking windows and doors for drafts and cracks, clearing the gutters from leaves and debris, installing weather-stripping and replacing furnace filters. You can also get a programmable thermostat to save on your energy bills.

Car maintenance DIY. Checking the tire pressure, windshield washer fluid levels, wiper blade condition, tire wear and coolant levels can all be easily accomplished by a light do-it-yourselfer. Choose Prestone antifreeze as it works better than any other brand in stopping corrosion, which can lead to overheating and breakdowns. It can be used for any make or model of car or light vehicle truck, eliminating the need to buy different fluids for each car in your household.

Ward off colds and flus. A strong immune system can help you avoid typical winter illnesses. Keep your immune system strong by staying fit with regular exercise and eating healthy. To save money at the grocery store, purchase frozen or in-season produce, choose budget-friendly protein like beans and lentils, and don't be afraid to price compare and price match.

## Fall Lawn Care Tips

Many of us feed our lawns at the first signs of spring, but did you know that autumn is the most important time to fertilize?

A lawn fed three to four times a year develops a deep root system to resist heat, drought and wear. It also develops thick green top growth to naturally resist weeds, disease and insects.

Feeding before the ground freezes, but after the lawn no longer needs mowing, will give your lawn the extra nutrients it needs during our long, cold winters.

Look for a fertilizer with higher nitrogen and potassium, the first and last numbers on the bag. These are the nutrients that help promote a stronger root structure, disease resistance and hardiness in cold weather. A properly fed lawn produces a deeper root structure, capable of reaching water deep in the soil.

**Here are some tips to help you put your lawn to bed for the winter:**

- Review your options at a lawn and garden centre by reading the bag. Look for higher nitrogen (N) and potassium (P) ratios.
- Use a quality lawn fertilizer spreader or handheld model to ensure even feeding.
- Don't apply if heavy rain is expected, and ensure the last application is on before the ground is frozen.
- Fertilizer can only do its job if it's on your lawn or garden. Sweep any fertilizer that lands on sidewalks or driveways back onto the lawn, avoiding sewers and waterways.
- You can safely use any leftover fertilizer next year, because fertilizer doesn't expire as long as it's kept dry.

PEACE RIVER  
REGIONAL DISTRICT

# Board HIGHLIGHTS

SEPTEMBER 2018

## Cannabis Related Business Bylaw No. 2316, 2018

The Peace River Regional District will be holding a Public Hearing on Thursday, September 27th to discuss Zoning Amendment Bylaw No. 2316, 2018. The proposed bylaw introduces the cannabis-related business use and related definitions to all five PRRD Zoning Bylaws, and prohibits the use in all zones. The intent of the prohibition is to require the rezoning of any property on which a cannabis related business is proposed. The Public Hearing will start at 10 am at the Dawson Creek Peace River Regional District Office prior to the Peace River Regional District regular board meeting. For more information, please call the PRRD at 250-784-3200 or visit [www.prrd.bc.ca/engage/16564/cannabis-related-business-bylaw](http://www.prrd.bc.ca/engage/16564/cannabis-related-business-bylaw).

## North Peace Fall Fair Society

The Regional Board directed staff to investigate what must be done to turn the North Peace Fall Fair Grounds over to the North Peace Fall Fair Society. The Board wishes to ensure that the property continues to be used for Fall Fair purposes or must be returned to the PRRD.

## Solid Waste

1. The Regional District will not pursue the establishment of a recycling depot in Charlie Lake due to additional costs and insecurities in the global recycling market.
2. The Bessborough Landfill Leachate Impoundment Design/ Tender Services Contract was awarded to GHD Limited at a cost of \$102,772.10 (excluding taxes).

Your lucky day this week will be Tuesday.

## AQUARIUS (Jan. 21-Feb. 19)

Your lucky day this week will be Friday.

## PISCES (Feb. 20-Mar. 20)
