

Renee Skoglund

Receives the A&B Business Academic Excellence Scholarship

Renee with her daughter, Aria.

Renee Skoglund has received the National American University (NAU) Foundation's A&B Business Academic Excellence Scholarship. Renee is pursuing her Medical Assisting degree from NAU in Sioux Falls, South Dakota.

"I am committed to my education and to the healthcare field, and, thanks to this scholarship, I am now one step closer to becoming a Certified Medical Assistant in a pediatric clinic," said Renee. "I'm so grateful to NAU and A&B Business."

Renee, who has recently overcome personal challenges, sees education as a way to invest in herself and set an example for her young daughter.

"I want to show my daughter that even though we go through hard times in life, we can still better ourselves and look forward to the future."

This scholarship was made possible by Dennis Aanenson, owner of A&B Business Solutions (abbusiness.com). Based in Sioux Falls, A&B Business offers a wide range of office and printing services and products in 16 locations in five states. A&B Business sponsors five scholarships for NAU students in South Dakota annually.

"At A&B, we value helping others and making our community a better place," said Aanenson. "I'm proud to be able to help Renee in this way. She will one day pay it forward in the help she provides her patients."

"I appreciate everything NAU has offered and the continued help I receive," said Renee. "I graduated from high school 6 years ago and was very nervous about going back to school. NAU made the process easy and effortless. I am so thankful to NAU, the NAU Foundation and A&B Business for their support."
