## KITCHEN OPEN MONDAY - SUNDAY 12 - 10

The term 'Soul food' was first widely used in the 60s to describe all food from the Southern States. Its origins, however, stretch back generations to the early slave trade and a West African heavily plant-based diet. It was a staple of the South before being developed into the comfort food we at Lucky Pig bring to you today! We aim to make as much as possible in house and hope it shows in the 'soul' of our food!
