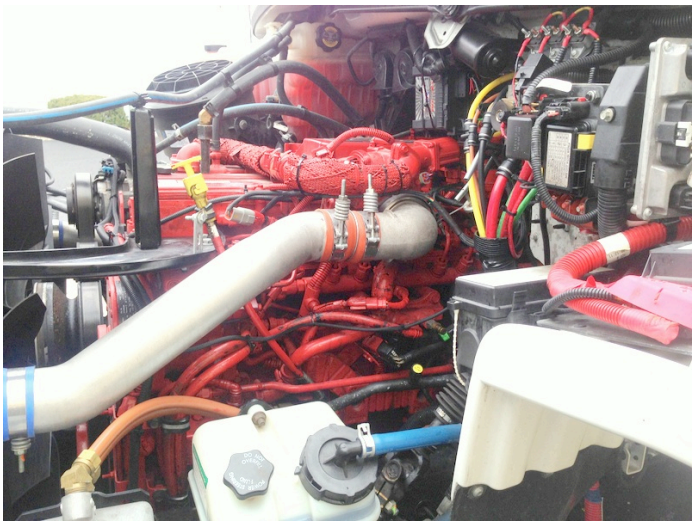
Installation of TS Performance MPHD
2009-Current 8.3L Cummins ISC

Read all instructions and fully understand them before installing your TS Performance MP-8 module. Disconnect battery terminals and remove keys from the ignition before installation. Place Di-Electric Grease onto every electrical connection.



1. Locate the Injector Harness connectors on the left side of the engine. There will be three connectors going into the side of the valve cover. The second picture shows the location of these three injector connectors. The first will be toward the front of the valve cover, the second will be mid way back while the third will be toward the back of the valve cover.
2. Disconnect the factory harness going into these connectors.
3. Connect our harness to the factory injector connectors and the factory harness. Our connectors are labeled (front, middle, back). Place the connectors labeled

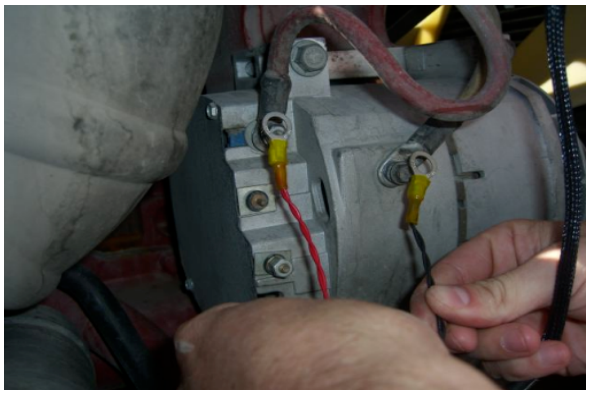
4. Now you will need to mount the MPHD module. We recommend away from moving parts and extreme heat that could damage the wire harness. We will normally mount the module to the firewall with the supplied zip ties with the wire harness pointed down out of the module to keep water from getting into the harness connector.



5. Route the RED power wire from the module to a clean 12 Volts, usually wired to the alternator on the passenger side of the vehicle.
6. Route the **BLACK** ground wires from the module to clean chassis ground or directly to battery, usually the alternator on the passenger side of the vehicle is sufficient and easily accessed.

If there are any questions on the product or installation of the module give us a call at TS Performance

DISCLAIMER

READ CAREFULLY BEFORE INSTALLING ANY TS PERFORMANCE PRODUCT

REMEMBER THIS IS A HIGH PERFORMANCE PRODUCT. USE AT YOUR OWN RISK. FOR OFF ROAD USE ONLY.

Do not use this product until you have carefully read the following agreement. This agreement sets forth the terms and conditions for the use of the TS Performance product. The installation of this product indicates that the buyer has read and fully understands this agreement and accepts its terms and conditions.

DISCLAIMER OF LIABILITY

TS Performance, its distributors or dealers shall in no way be responsible for the product's proper use and service. The buyer of this system hereby waives all liability claims. The buyer acknowledges that he is not relying on the sellers skill or judgment to select or furnish goods suitable for any particular purpose and that there are no liabilities which extend beyond the description on the face hereof, and the buyer hereby waives all remedies or liabilities, expressed or implied arising by law or otherwise, (including without obligations of the seller with respect fitness, merchantability and consequential damages) or whether or not occasioned by the seller's negligence.

The seller disclaims any warranty and expressly disclaims any liability for personal injury or damages. The buyer acknowledges and agrees that the disclaimer of any liability for personal injury is a material term for this agreement and the buyer agrees to indemnify the seller and to hold the seller harmless from any claim related to the item of the equipment purchased. Under no circumstances will the seller be liable for any damages or expenses by reason of use or sales of any such equipment.

The seller assumes no liability regarding the improper installation or misapplication of its products. It is the installer's responsibility to check for proper installation and if in doubt the manufacturer is to be contacted.
