## IFC RECOMMENDATIONS

IFC advises:

1. All mariners to report any incidents timely to the nearest coastal state and to the IFC at the earliest possible time.
2. Ships moving at slow speed or are choosing to remain at anchor in areas where sea robbery/theft is regularly reported should remain vigilant and adopt necessary and/or added security measures.
3. All mariners to take note on the description of the perpetrators and to take photos of the perpetrators if possible. Where available, CCTV footage capturing the incident should be provided to the coastal state authorities for follow-on investigation.
4. Shippers and Seafarers operating in the Sulu-Celebes seas are strongly recommended to be vigilant and to establish contact with the Philippines, Malaysian and Indonesian Authorities to report their presence. Please refer to IFC Spot Commentary 4/18 for the latest assessment of the situation in that affected area.
5. Shippers are advised to take note that the threat of terrorist activity in the maritime domain remains a possibility in the region due to ISIS and the Al-Qaeda. The possibility of this threat was previously quoted in Al-Qaeda's online magazine "Resurgence", which called for the disruption of global trade and shipping through acts of piracy, among other tactics. Shippers are therefore advised to exercise vigilance and to adopt self-defensive measures as stated in the Regional Guide to Counter Piracy and Armed Robbery against Ships in Asia, especially when transiting narrow choke points and areas which are known to have experienced incidents of sea robbery/piracy.
