SafetyZONE

We understand the problems you have ... complaints of sore legs ... sore backs ... hard floors ... slipping and tripping. You know that crippling feeling of numbness, pain, tiredness ... lack of motivation ... loss of productivity.

We've observed over the years that people will do anything to relieve the strain on their back and legs ... like standing on bits of old carpet or mats piled one on top of another ... bits of wood or even flattened cardboard boxes. At the best these are temporary solutions ... at the worst they are unsafe and hazardous, especially in your workplace where safety is essential.

Do you know you have a responsibility by law to ensure "no harm is caused by hazardous stress and fatigue?"

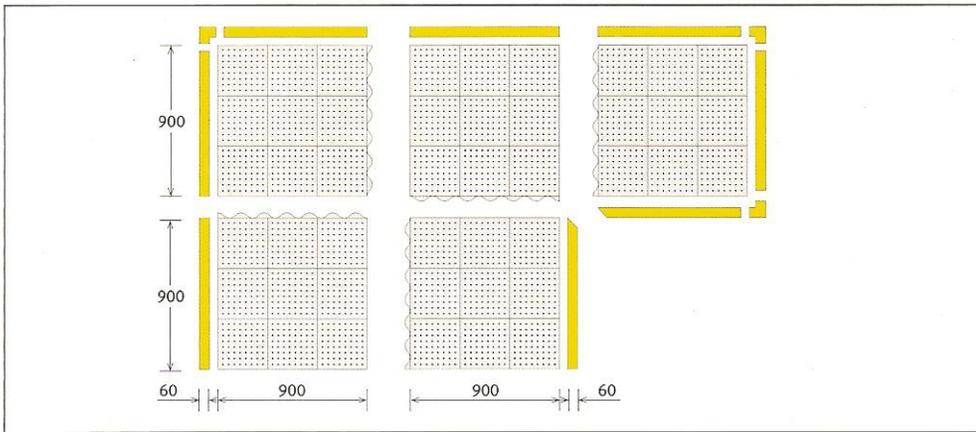

So it's good to know that you can fit out your entire workplace with mats that are both safe and specifically designed to relieve stress and fatigue for less than the cost of one single accident or claim on you for compensation.

Unsafe substitutes will cost you money ...

Our customers have learned that the right mat in the right place will relieve fatigue and enhance safety. We can help you find the right mat for your workplace ... and you will find morale and productivity will improve too!

It's important then to choose the right mat ...

SafetyZONE is your choice when you are looking for an anti-fatigue flooring for small to large areas. SafetyZONE is a modular system of 900mm x 900mm tiles that you can join together and extend in any direction. Concealed jointing ... that creates a flooring that is visually seamless and safe ... and attachable ramping in safety yellow complete the system for you. SafetyZONE is simple for you to assemble and is easily rearranged to accommodate any changes you may require. The open design allows debris to drop through and drainage in wet areas ... and the modular system can be easily reassembled after cleaning. SafetyZONE is safe for use where you have water, swarf, sawdust, etc and where you require excellent anti-fatigue qualities also.

SafetyZONE specifications

SIZE	COLOUR	WEIGHT	THICKNESS
900 x 900mm	Black	8kg	16mm

Our 4 step No Risk Guarantee to you ...

- SafetyZONE is fully guaranteed for 5 years against failure due to manufacturing defects.
- SafetyZONE is guaranteed to help reduce fatigue and stress in your workplace.
- SafetyZONE is guaranteed to lie flat and be safe.
- and we guarantee your complete satisfaction. In fact if you are not delighted with your SafetyZONE, and you tell us, we will exchange it for another mat of your choice to the same value ... all part of the SafetyZONE Commitment to you.
