# MultiMAT

We understand the problems you have ... complaints of sore legs ... sore backs ... hard floors ... slippery floors. You know that crippling feeling of numbness, pain, tiredness ... lack of motivation ... loss of productivity.

We've observed over the years that people will do anything to relieve the strain on their back and legs ... like standing on bits of old carpet or mats piled one on top of another ... bits of wood or even flattened cardboard boxes. At the best these are temporary solutions ... at the worst they are unsafe and hazardous, especially in your workplace where safety is essential.

*You have a responsibility by law to take all practicable steps not to cause harm at your workplace.*

So it's good to know that you can fit out your entire premises with mats that are both safe and specifically designed to relieve stress and fatigue for less than the cost of one single accident or claim on you for compensation.

### Unsafe substitutes will cost you money ...

Our customers have learned that the right mat in the right place will relieve fatigue and enhance safety. We can help you find the right mat for your business ... and you will find morale and productivity will improve too!

### It's important then to choose the right mat ...

MultiMAT is your choice when you need an antifatigue and safety matting as a runner ... any length can be cut for your specific requirements. MultiMAT is lightweight for you to handle and can be easily rolled up for cleaning and floor maintenance. A safe antislip knob design on both sides means MultiMAT is reversible ... simply turn mat over to extend wearing surface. Drainage holes mean MultiMAT is safe for you in both wet and dry areas. A terracotta option resists grease and chemicals and is suitable for use in oily and greasy environments ... however regular cleaning with a mild detergent and water is necessary to maintain antislip qualities and prolong mat life.

### MultiMAT specifications

SIZE	COLOUR	WEIGHT	THICKNESS
900mm wide, any length	Black or Terracotta	7.0kg/metre	10mm

### Our 4 step No Risk Guarantee to you ...

- MultiMAT is fully guaranteed for 5 years against failure due to manufacturing defects.
- MultiMAT is guaranteed to help reduce fatigue and stress in your business.
- MultiMAT is guaranteed to lie flat and be safe.
- and we guarantee your complete satisfaction. In fact if you are not delighted with your MultiMAT, and you tell us, we will exchange it for another mat of your choice to the same value ... all part of the MultiMAT Commitment to you.
