**Improving Genomics through  
Collaboration and Innovation**

# 2016

Brought to you by D-MARK Biosciences and the Faculty of Medicine and Dentistry, University of Alberta

**Thursday May 5, 2016**

**9 am – 3:30pm Symposium at the Edmonton Clinic Health Academy (ECHA 2-190)**

**3:30-6:30pm Poster Competition and Social at Katz Level 1 Atrium**

**University of Alberta**

Genomics holds great promise for advancing our understanding of all living organisms. Technological advancements in Genomics continue to come at alarming rate; there are numerous complexities to consider. For the uninitiated this can create confusion and make planning for an initial experiment difficult. In order to help demystify applications in NGS (Next Generation Sequencing), we have assembled leading experts, both academic and industry, to share their work and experiences in Genomics. The objective of this symposium is to provide a forum for sharing, learning, and networking. The symposium is open to anyone who is interested in or already using Genomics in their research or diagnostic programs. A poster competition and social will be held from 3:30-6:30 PM, there are cash prizes to be won! Breakfast, lunch, and coffee breaks are provided at no cost to attendees thanks to our gracious sponsors. There is no fee to attend but registration is required.

To register, please go to [www.gexc2016.com](http://www.gexc2016.com)

## Featured Speakers

**Dr. Martin Somerville – Medical Genetics, University of Alberta**

**Dr. Gane Ka-Shu Wong – Biological Sciences and Medicine – University of Alberta**

**Dr. Janice Cooke – Biological Sciences, University of Alberta**

**Dr. Christopher McCabe – Emergency Medicine – University of Alberta**

**Dr. Paul Stothard – Agricultural, Food, and Nutritional Science, University of Alberta**

**Dr. Jennifer Zantinge – Alberta Agriculture, Feed Crops**

**Dr. Nicholas Ashbolt – School of Public Health, University of Alberta**

**Dr. Cheng-Han Lee – Laboratory Medicine and Pathology, University of Alberta**
