INDEPENDENT AUDITOR'S REPORT

Board of Directors and Members
Schools Excess Liability Fund
Sacramento, California

We have audited the accompanying financial statements of Schools Excess Liability Fund (SELF) as of June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise SELF's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the State Controller's *Minimum Audit Requirements for California Special Districts*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of SELF as of June 30, 2018 and 2017, and the changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as presented in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Additional Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise SELF's basic financial statements. The additional information section, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The additional information section is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional information section is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2018, on our consideration of SELF's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering SELF's internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS

Schools Excess Liability Fund
Management's Discussion and Analysis
Fiscal Year 2017/2018

Schools Excess Liability Fund (SELF) was established March 1, 1986 by a Joint Powers Agreement to provide mutual risk pooling for public educational agencies in California. Under such an agreement, two or more public agencies may jointly exercise any power common to the contracting parties. SELF has two programs, the Excess Liability (XL) Program, with coverage from 1989 through today, and the Excess Workers' Compensation (XCW) Program, with coverage on claims incurred between July 1, 1989 and June 30, 2010.

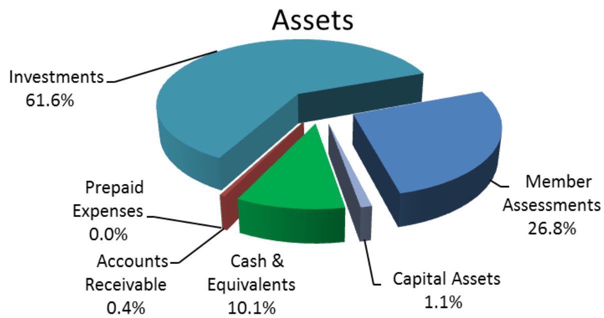
SELF is a public agency which exists to serve our members and the students they represent. For financial reporting purposes, SELF operates as a special-purpose government engaged in business type activities. SELF is governed by an elected Board of Directors and alternates from six K-12 regions across California, two community college regions, and two ex-officio members representing the Department of Education and the Chancellor of Community Colleges Office. The Board of Directors elects a Chair, Vice Chair, Secretary, and Comptroller for a two-year term from the members of the Board of Directors. SELF also has an Executive Committee comprised of SELF Board Officers, including the Past Chair, and the Chairs of dedicated committees for Finance, Member Services & Communications, Liability Claims & Coverage, and Workers' Compensation Claims & Coverage. The Board of Directors is responsible for the ongoing operations of SELF and is empowered to implement and enforce all provisions of the Joint Powers Agreement, the SELF Bylaws, and all approved policies and procedures.

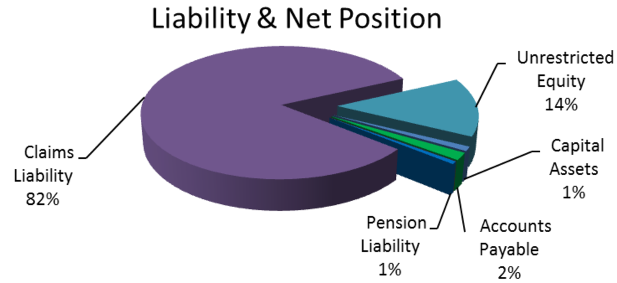
Mission Statement
SELF is a member-owned, statewide partnership of public educational agencies providing quality pooled programs for excess coverage that benefit our students.

Overview of the Financial Statements
This financial annual report consists of three parts: management's discussion and analysis; basic financial statements, and supplementary information.

- The basic financial statements include the Statement of Net Position, Statement of Revenues, Expenses and Change in Net Position, and Statement of Cash Flows, for the combined operations of SELF for the fiscal years ended June 30, 2018 and 2017. The notes to the basic financial statements are an integral part of the basic financial statements and provide details on SELF membership, accounting policies, claims liabilities, and other information in the statements.
- Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as presented in the table of contents, be presented to supplement the basic financial statements and other supplementary information such as combining financial statements for the fiscal year ended June 30, 2018 and 2017.

Schools Excess Liability Fund
Management's Discussion and Analysis
Fiscal Year 2017/2018





***Financial Highlights – Statement of Net Position**:*

The Statement of Net Position shows the balances in assets, deferred outflows of resources, liabilities, and deferred inflows of resources, by program separated by current, long-term, and capital assets. Investments account for 62% of all assets; 94% are long-term with maturities between one and five years. Total investments have decreased 5%, as SELF has used these resources to fund claim payments. The other major asset is Member Assessments, which represents the remaining years of a ten year fixed assessment plan to fund Excess Workers' Compensation claims from July 1, 1989 through June 30, 2010, with the current portion due in 2018/2019. SELF, like most self-insured workers' compensation pools, has had to assess members, due to the continuing increases in indemnity expenses over the original estimates going back to the program's inception in 1989.

The majority of assets are held to fund the claims liabilities, which account for 97% of all liabilities. Total claims liabilities have decreased 5% from June 30, 2017. As of June 30, 2018, 10% of all claims liabilities were current, or expected to be due within one year, while the majority is non-current; this is expected due to the extended nature of excess risk pooling.

SELF currently owns a building located at 1531 I Street, in downtown Sacramento, CA, which represents 1% of all assets. SELF has no long-term debt other than the reserved claims liabilities, claims administration expenses, and the net pension obligation, recorded in compliance with GASB 68, based on the CalPERS Accounting Valuation Report, which is updated annually.

Schools Excess Liability Fund
Management's Discussion and Analysis
Fiscal Year 2017/2018

Financial Highlights – Statement of Revenues, Expenses & Change in Net Position:
The Statement of Revenues, Expenses & Change in Net Position shows the activity of SELF from July 1, 2017 through June 30, 2018 for the Excess Liability Program (XL), Excess Workers' Compensation Program (XWC), and Building Fund, and a comparison with the prior fiscal year's audited financial statements. There are four basic parts to this statement: Operating revenues, Program expenses, General and Administrative expenses, and Non-operating revenues and expenses.

Operating revenue includes the contributions by SELF's members for financing pool-funding requirements and Member Assessments. Excess Liability contributions increased 5% from the prior year. There have been no additional Member Assessments or adjustments since 2014/2015. Rental income for the Building Fund is recorded under Non-operating revenues, which increased 3% from the prior year.

Program expenses are expenses directly related to the program's main function, such as claims indemnity, claim expenses, and reinsurance or excess insurance, accounting for 88% of all expenditures, these were 53% higher than the prior year; Net Claims and Claims Adjustment Expense were three times higher (partially due to the $6.3 million decrease in the Excess Workers' Compensation Program in the prior year) and Excess / Reinsurance Expense decreased 3%. While member contributions and reinsurance expense are for the fiscal year ending June 30, 2018, the claims and claims adjustment expenses were predominantly for payments to members on claims from prior fiscal years and changes in the estimated historic claims liability.

General and Administrative expenses are costs to manage and maintain each program, including in-house claims management, and indirect costs, such as actuarial reports, claims audits, and audit fees, which are required by law. General and Administrative expenses were 12% of total expense and increased 7% from the prior fiscal year.

Non-operating revenues and expenses are income and/or costs not directly related to the operation of the programs, including rental and investment income or loss. They are reported in a separate section to comply with GASB 34, allowing financial statement users to see the true operating income or loss before any additional or non-typical items are included. SELF receives rental income from tenants at our property at 1531 I Street, Sacramento, CA and investment income on retained equity in both the Excess Liability and Excess Workers' Compensation Programs. Net Investment Income, which includes interest received and changes in the market value of investments, had a net loss due to unrecognized decreases in market values, which are typical during periods of rising interest rates.

Schools Excess Liability Fund
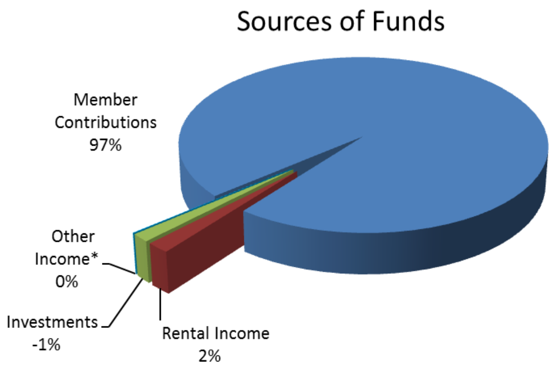
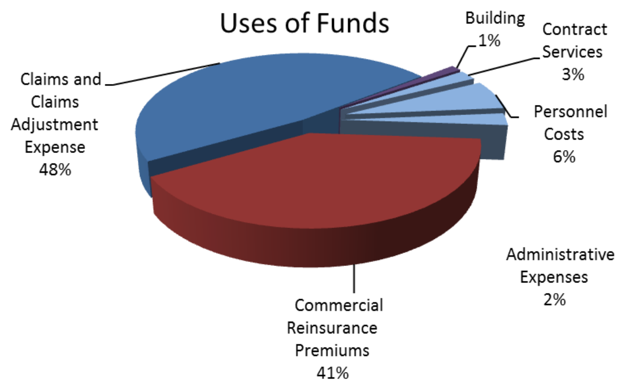
Management's Discussion and Analysis
Fiscal Year 2017/2018

Individual Program Overview:





Excess Liability:

The Schools Excess Liability Fund (SELF) was established with the Excess Liability (XL) Program. In November 1985, a group of concerned school business officials met and formed a steering committee to determine the feasibility of establishing a statewide school excess liability pool. They wanted to combat the growing liability insurance crisis and provide public educational agencies with a stable and broad liability coverage product. SELF began offering excess liability coverage March 1, 1986. In 2017/2018, SELF had 524 active members across the state of California.

In 2017/2018, SELF provided excess liability coverage up to $55 million, through a combination of self-insurance and reinsurance. SELF members have retained limits of $1 million or $5 million. Program rates were increased slightly in 2017/2018 to mitigate the troubling legal and legislative liability trends statewide.

As of June 30, 2018, the Excess Liability Program has $28.5 million in claim funding, a 5% decrease from June 30, 2017. Actual claims paid in 2017/2018 were $10.1 million, while reserves decreased just $2.2 million, and the incurred but not reported increased $3.7 million. The program has experienced several years with unusually high claim frequency and severity which permeated the self-insured layer, after years of relatively stable loss development.

Excess Workers' Compensation:

July 1, 1989, SELF launched the Excess Workers' Compensation (XWC) Program, which closed after the June 30, 2010 fiscal year, and had 50 members during its tenure, with member retentions of $250,000 to $2 million. SELF purchased excess workers' compensation insurance for all policy years, with self-insured retentions of $1 million to $2 million. SELF continues to manage the runoff of workers' compensation claims incurred between July 1, 1989 and June 30, 2010.

As of June 30, 2018, the Excess Workers' Compensation Program has $88.8 million in claim funding, a 5% decrease from June 30, 2017. SELF reimbursed members $3.9 million for claims in 2017/2018 and $45.8 million since the program closed in 2010. In 2017/2018, the program realized a decrease in Net Claims and Claims Adjustment Expense for the third year of $2.4 million, with reductions of $5.76 million in claims reserves and $550 thousand in incurred but not reported (IBNR) claims liability and unallocated loss adjustment expense (ULAE).

Open claims were reduced by 14% from the prior year end. Reductions include reserve savings due to 15 new compromise and releases, 24 claims closed due to inactivity over the last two years, 3 claimants passed away, and 2 claims were closed as they reached the SELF retention cap. This positive trend is a reflection of the efforts SELF has made, in concert with its members, to close open claims and salvage reserves within the XWC Program's layers and to assist members in settling claims prior to piercing these layers.

Non-Operating Revenue:

Rental Income:

SELF owns and manages a building in downtown Sacramento, at 1531 I Street, Sacramento, California. The building was purchased in 1993 with retained equity and is considered an investment of SELF. Approximately 65% of the building is leased to long-term tenants, including one of our members, Alliance of Schools for Cooperative Insurance Programs. The balance is used as the SELF office for both the Excess Liability and Excess Workers' Compensation Programs. SELF maintains the building in order to protect and enhance the investment of our members. SELF also has a state of the art conference center, which is available for use at no charge to any of our members.

Investments:

SELF has $85 million in cash and investments, with $73 million held in investment accounts, as of June 30, 2018. Approximately 14% was liquid in either bank accounts or the Local Agency Investment Fund, which is considered liquid. 86% of funds are held in separate investment portfolios for the Excess Liability and Excess Workers' Compensation Programs. Each portfolio is managed based on the cash flow needs of the programs. Excess Workers' Compensation investments are generally invested longer term, due to the extended nature of these claims. Both portfolios are managed to maximize yields over time.

Schools Excess Liability Fund
Management's Discussion and Analysis
Fiscal Year 2017/2018

Budget verses Actual:

SELF's annual budget is reviewed by the Finance Committee and approved by the Board of Directors. Actual amounts for the fiscal year versus the adopted budget are included to show SELF's financial performance in relation to the annual plan for the programs. Revenues were less than 1% under the adopted budget and increased 5% from prior year actuals. Total expenses were 25% greater than the adopted budget and 46% greater than the prior year. Total Program Expenses were 31% greater than the adopted budget. Claims and claims adjustment expenses were 87% higher, including the reduction of Net Claims Expense in the Excess Workers' Compensation Program. Reinsurance expenses were 3% lower than the adopted budget, and 4% less than the prior fiscal year. General and Administrative expense was 9% less than the adopted budgeted amount and 7% greater than the prior year. Non-operating revenues, which had a net increase in 2017/2018, with Building income slightly higher than the adopted budget and Investments continuing to be negative due to unrealized losses in the market value of investments, while Interest Income was 11% higher than the adopted budget.

SCHOOLS EXCESS LIABILITY FUND

STATEMENTS OF CASH FLOWS
FOR THE YEARS ENDED JUNE 30, 2018 AND 2017

	2018	2017
CASH FLOWS FROM OPERATING ACTIVITIES		
Cash received from members and others	$ 21,428,619	$ 20,709,832
Cash received from reinsurance	1,807,387	3,500,000
Cash paid for claims and settlements	(14,136,308)	(16,325,430)
Cash paid for reinsurance premiums	(7,898,686)	(8,220,764)
Cash paid to suppliers for goods and services	(1,022,657)	(878,168)
Cash paid for employees services	(1,343,396)	(1,266,305)
Net cash used in operating activities	(1,165,041)	(2,480,835)
CASH FLOWS FROM CAPITAL AND RELATED FINANCING ACTIVITIES		
Purchase of capital assets	(5,640)	(13,885)
CASH FLOWS FROM INVESTING ACTIVITIES		
Securities purchased	(12,389,924)	(50,289,690)
Securities sold and matured	14,350,598	53,967,898
Rental income received	294,292	289,124
Interest received	1,401,066	1,392,812
Net cash provided by investing activities	3,656,032	5,360,144
Net increase in cash and cash equivalents	2,485,351	2,865,424
Cash and cash equivalents, beginning of year	9,462,791	6,597,367
Cash and cash equivalents, end of year	$ 11,948,142	$ 9,462,791
CASH FLOWS FROM OPERATING ACTIVITIES		
Operating income (loss)	$ (4,397,364)	$ 999,249
Adjustments to reconcile operating income (loss) to net cash used in operating activities:		
Depreciation	125,473	130,840
Loss on disposal of capital assets		963
(Increase) decrease in:		
Member contribution and other receivables	(485)	
Excess insurance receivable	(63,438)	3,500,000
Member assessments receivable	6,355,281	6,355,281
Prepaid expenses	18,504	20,771
Deferred outflows of resources	(144,540)	(86,985)
Increase (decrease) in:		
Accounts payable and accrued expenses	(168,482)	(10,835)
Other liabilities	1,807,387	
Net pension liability	109,229	146,145
Deferred inflows of resources	(19,611)	(197,435)
Unpaid claims and claim adjustment expenses	(4,786,995)	(13,338,829)
Net cash used in operating activities	$ (1,165,041)	$ (2,480,835)

See accompanying notes to financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Schools Excess Liability Fund (SELF) is a statewide Joint Powers Authority (JPA) established to provide risk pooling for excess liability and excess workers' compensation coverage for educational agencies in California. Effective July 1, 2010, SELF no longer offered an Excess Workers' Compensation Program. SELF will continue to provide administration of this program through the claims run-out period. Participation in SELF is voluntary.

Membership

Under the SELF JPA Agreement, member districts must make a three-year commitment to participate in SELF. Mid-term cancellation or withdrawal is not permitted and members' annual contributions are due at the beginning of the year. As such, all contributions are recognized evenly over the applicable coverage year. Withdrawing districts are not entitled to receive any equity distribution until five years after withdrawal. There were no amounts held for member withdrawal at June 30, 2018 and 2017.

SELF’s Excess Liability Program membership currently consist of approximately 524 educational entities including school districts, county offices of education, community college districts, charter schools, regional occupational programs, and education affiliated joint powers authorities.

The Excess Workers’ Compensation Program was discontinued by the Board in 2010; however at the height of the program covered payroll was more than $8.9 billion with membership consisting of entire JPAs, individual school districts, and community college districts.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Under the accrual basis, revenues and the related assets are recognized when earned, and expenses and the related liabilities are recognized when the obligation is incurred.

Operating revenues include member contributions. Operating expenses include the provision for claims and claims adjustment expenses, insurance premiums, premium rebates, and general and administrative expenses. Non-operating revenues and expenses include investment activities and building income.

Excess Liability Program

Since 1986 SELF has provided excess liability coverage to educational agencies in California.

Policy Years	**Member Retentions**	**SELF Layer**
1986-1989	$1M	$1M to $10M
1989-1990	$1M	$1M to $12.5M
1991	$1 M	$1M to $15 M
1992–2006	$1M - $5M	$1M to $15M
2007–2008	$1M - $5M	$1M to $20M
2009	$1M - $5M	$1M to $25M- Fully Insured
2010–2014	$1M - $5M	$1M to $25M
2015–2017	$1M - $5M	$1M to $30M
2018	$1M - $5M	$1M to $55M

Supplemental to excess coverage above, SELF offered Optional Excess Liability (OEL) coverage. 2017 was the last policy year SELF offered OEL coverage. In 2018 this coverage was incorporated in SELF's regular coverage; extending coverage up to $55M.

Policy Year	**OEL - Option 1**	**OEL - Option 2**	**OEL - Option 3**	**OEL - Option 4**
1990	$6.5 M x $12.5 M			
1991-2000	$5 M x $15 M	$10 M x $15 M		
2001	$5 M x $15 M	$10 M x $15 M	$15 M x $25 M	$10 M x $40 M
2002	$5 M x $15 M	$10 M x $15 M	$35 M x $15 M	
2003-2006	$5 M x $15 M	$10 M x $15 M	$30 M x $15 M	
2007	$5 M x $20 M	$20 M x $25 M		
2008	$5 M x $20 M	$20 M x $25 M	$5 M x $45 M	
2009	$20 M x $25 M	$25 M x $25 M	$5 M x $45 M	
2010-2014	$20 M x $25 M	$25 M x $25 M		
2015-2017	$25 M x $30 M			

Excess Workers' Compensation Program

On July 1, 1989 SELF added excess workers' compensation coverage. 2010 was the last policy year SELF offered excess workers' compensation coverage.

Policy Years	**Member Retentions**	**SELF Retention**
1990–1999	$250K – $2M	$2M
2000–2004	$250K – $1M	$1M
2005	$300K – $1M	$1M
2006–2010	$350K – $1M	$1M

Excess Coverage

SELF enters into excess coverage agreements whereby it cedes various amounts of risk to another entity. Risks ceded are treated as though they are not risks for which SELF is liable.

Cash Equivalents

SELF considers all highly-liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Investment in Building and Equipment

Building and equipment are carried at cost. Depreciation is determined using the straight-line method, over the useful lives of the related assets. The useful lives of the building and improvements are estimated to be thirty years. SELF has sixty-five percent of the building available to lease to third parties under noncancellable leases. One suite is leased to a related party (ASCIP, JPA Member).

The useful lives of furniture and equipment are estimated to be five years except computer equipment, which has a three years useful lives. When assets are sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in the statement of revenues, expenses and change in net position for the period. The cost of maintenance and repairs are charged to expense as incurred.

SELF does not believe there to be any impairment of its capital assets at June 30, 2018 and 2017.

Member Assessment Receivable

SELF's JPA Agreement allows for assessments to address deficit position assets. Assessments are based on a pro rata share of each member's contribution for each policy year assessed. In the event that a member fails to meet their payment schedule, the member shall be charged interest in a manner and amount earned on funds deposited in LAIF, at the time the member is delinquent.

Unpaid Claims and Claim Adjustment Expenses

SELF's policy is to establish unpaid claims and claim adjustment expenses based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated amounts of salvage, subrogation and reinsurance recoverable on unpaid claims are deducted from the liability. SELF increases the liability for allocated and unallocated claim adjustment expenses. Because actual claims costs depend on such complex factors as inflation, changes in doctrine of legal liability, and damage awards, the process used in computing unpaid claims and claim adjustment expenses does not necessarily result in an exact amount, particularly for excess coverages. Unpaid claims and claim adjustment expenses are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, other economic and social factors, and estimated payment dates. Adjustments to unpaid claims and claim adjustment expenses are charged or credited to expense in the period in which they are made. The current portion of the claims liabilities has been estimated using an independent actuary estimates and cash flow projections on current claims.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of SELF's portion of the California Public Employees' Retirement System (CalPERS) Miscellaneous plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows/Deferred Inflows of Resources

In addition to assets and liabilities, the statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of resources that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then. Conversely, deferred inflows of resources represent an acquisition of resources that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

Contributions made to SELF's pension plan(s) after the measurement date but before the fiscal year end are recorded as a deferred outflow of resources and will reduce the net pension liability in the next fiscal year.

Additional factors involved in the calculation of SELF's pension expense and net pension liability include the differences between expected and actual experience, changes in assumptions, differences between projected and actual investment earnings, changes in proportion, and differences between SELF's contributions and proportionate share of contributions. These factors are recorded as deferred outflows and inflows of resources and amortized over various periods. See Note 6 for further details related to these pension deferred outflows and inflows.

Member Contributions

Member contributions are recognized as revenue when earned based upon the coverage period. To the extent that allocated losses exceed contributions previously paid, interest, and other income, SELF may assess its members.

Commercial Reinsurance Premiums

SELF purchased additional insurance which covers losses greater than the limits of SELF's excess coverage. Such additional insurance coverage was offered to members through an Optional Excess Liability coverage (OEL). The OEL premium was reported is part of Member Contributions.

Income Taxes

SELF is an organization comprised of public agencies and is exempt from federal income and California franchise taxes, accordingly, no provision for federal or state income taxes has been made in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Reclassifications

The prior year statement of net position was reclassified to move an amount included in accounts payable and accrued expenses to other liabilities.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash, cash equivalents and investments as of June 30, 2018 and 2017 consisted of the following:

	2018	2017
Cash and cash equivalents:		
Cash on hand and in bank	$ 1,983,770	$ 37,418
Money Market	231,798	2,605,300
Local Agency Investment Fund	9,732,574	6,820,073
Total cash and cash equivalents	11,948,142	9,462,791
Investments:		
Corporate Notes	18,743,808	15,761,517
U.S. Agency Bonds	8,422,098	9,336,844
U.S. Treasury Notes	38,043,881	43,008,032
Certificates of deposit	6,250,299	4,455,787
Municipal bonds	226,423	1,109,631
Asset-backed securities / collateralized mortgage obligations	1,479,352	3,279,815
Total investments	73,165,861	76,951,626
Total cash, cash equivalents and investments	$ 85,114,003	$ 86,414,417

Local Agency Investment Fund

SELF is a voluntary participant in LAIF. The enabling legislation for LAIF is California Government Code Section 16429.1 under the oversight of the Local Investment Advisory Board. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Separate complete financial statements are available at P.O. Box 942809, Sacramento, CA 94209-0001 or online at www.treasurer.ca.gov.

Money Market

SELF has a portion of its cash and cash equivalents in a money market account at a third party custodian. The money market account is not covered by FDIC insurance, but is fully collateralized.

Investment Credit Risk

SELF's investment policy limits investment choices to obligations of the United States Treasury, its agencies and instrumentalities, Federal agency or United States sponsored enterprise obligations, State of California or any local agency within the state, Banker's Acceptances Commercial short-term paper, corporate medium-term notes, FDIC insured or fully collateralized time certificates of deposit located in California, negotiable certificates of deposit issued by nationally or state-chartered bank, savings, or federal associations, State of California's Local Agency Investment Fund, insured savings or money market accounts, money market funds registered by the Securities and Exchange Commission under the Investment Company Act of 1940 (15 U.S.C. Sec. 80a-1 et seq.), mortgage securities or obligations, The California Asset Management Program, and Supranationals located within the United States (CA Gov. Code §53651(j)). At June 30, 2018 and 2017, all investments, excluding LAIF, were issued, registered and held by SELF's agent in SELF's name.

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that categorizes the inputs to valuation techniques used to measure fair value into three levels. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 Inputs to the valuation methodology include inputs – other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within a fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

U.S. Agency Bonds and U.S. Treasury Notes are valued using quoted market prices (Level 1 Input).

Corporate notes, certificates of deposit, Municipal bonds and asset-backed securities/collateralized mortgage obligations are valued using a matrix pricing model (Level 2 Input).

Custodial Credit Risk

Cash balances held in banks are insured up to $250,000 by the FDIC. Of the bank balances, $2,318,318 were not covered by FDIC insurance, but are fully collateralized. Included in this amount was a $1,807,387 deposit from CSAC-EIA received June 30, 2018, ceding the balance of their layer for a claim.

With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

The California Government Code and SELF's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair values to changes in market interest rates. As of June 30, 2018, the average effective maturity of the investments contained in SELF's pool is approximately 2.68 years.

Information about the sensitivity of the fair values of investments to market interest rate fluctuations is provided by the following table that shows the distribution of SELF's investments by maturity as of June 30, 2018:

		Remaining Maturity (in Months)		
Investment Type	**Fair Value**	**12 Months or Less**	**13 to 24 Months**	**25-60 Months**
Corporate Notes (Level 2)	$ 18,743,808		$ 387,631	$ 18,356,177
U.S Agency Bonds (Level 1)	8,422,098	$ 123,483	147,465	8,151,150
U.S Treasury Notes (Level 1)	38,043,881		651,387	37,392,494
Certificates of deposit (Level 2)	6,250,299	4,432,743	993,126	824,430
Municipal bonds (Level 2)	226,423		226,423	
Asset-backed securities (Level 2)	1,479,352		660,981	818,371
Total	$ 73,165,861	$ 4,556,226	$ 3,067,013	$ 65,542,622

The following table that shows the distribution of SELF's investments by maturity as of June 30, 2017:

		Remaining Maturity (in Months)		
Investment Type	**Fair Value**	**12 Months or Less**	**13 to 24 Months**	**25-60 Months**
Corporate Notes (Level 2)	$ 15,761,517			$ 15,761,517
U.S Agency Bonds (Level 1)	9,336,844		$ 124,298	9,212,546
U.S Treasury Notes (Level 1)	43,008,032			43,008,032
Certificates of deposit (Level 2)	4,455,787		4,455,787	
Municipal bonds (Level 2)	1,109,631	$ 261,102		848,529
Asset-backed securities (Level 2)	3,279,815			3,279,815
Total	$ 76,951,626	$ 261,102	$ 4,580,085	$ 72,110,439

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. SELF's investment custodian uses Standard & Poor's (S&P) rating system; SELF's investment management company uses Moody's rating system.

Presented below is the actual rating, as rated by S&P, for each investment type as of June 30, 2018:

		Rating as of Year End			
Investment Type	**Fair Value**	**AAA to AA**	**AA- to A-**	**BBB+***	**Not Rated**
Corporate Notes	$ 18,743,808	$ 3,443,694	$ 13,012,525	$ 2,287,589	
U.S Agency Bonds	8,422,098	8,422,098			
U.S Treasury Notes	38,043,881	38,043,881			
Certificates of deposit	6,250,299				$ 6,250,299
Municipal bonds	226,423				226,423
Asset-backed securities	1,479,352	1,479,352			
Money market	231,798				231,798
LAIF	9,732,574				9,732,574
Total	$ 83,130,233	$ 51,389,025	$ 13,012,525	$ 2,287,589	$ 16,441,094

*Rated A3 by Moody's.

Presented below is the actual rating, as rated by S&P, for each investment type as of June 30, 2017:

		Rating as of Year End			
Investment Type	**Fair Value**	**AAA to AA**	**AA- to A-**	**BBB+***	**Not Rated**
Corporate Notes	$ 15,761,517	$ 1,748,549	$ 12,169,783	$ 1,843,185	
U.S Agency Bonds	9,336,844	9,336,844			
U.S Treasury Notes	43,008,032	43,008,032			
Certificates of deposit	4,455,787	598,368	577,409		$ 3,280,010
Municipal bonds	1,109,631	261,102			848,529
Asset-backed securities	3,279,815	3,279,815			
Money market	2,605,300				2,605,300
LAIF	6,820,073				6,820,073
Total	$ 86,376,999	$ 58,232,710	$ 12,747,192	$ 1,843,185	$ 13,553,912

*Rated A3 by Moody's.

Concentration of Investment Credit Risk

At both June 30, 2018 and 2017, SELF's holdings in Federal National Mortgage Association represented 12% of the portfolio's total invested assets.

3. MEMBER ASSESSMENTS RECEIVABLE

Adverse loss development and increases in the incurred but not reported (IBNR) claims liability resulted in a deficit fund position, for certain policy years, in the Excess Workers' Compensation Program. Although the program has assets for continued operation, the board approved an assessment as provided in SELF's JPA Agreement. Assessments are based on a pro rata share of each member's contributions for each year assessed. The assessment plan provides for collection from members for the ten year period from 2013–14 through 2022–23 with a review of funding status after five years. At June 30, 2018 and 2017, SELF made no allowance for uncollected accounts as management estimated the accounts to be collectable. The assessments receivable at June 30, 2018 and 2017 are as follows:

	2018	**2017**
Member assessments receivable	$ 31,767,402	$ 38,122,683
Less current portion of member assessments receivable	(6,355,281)	(6,355,281)
Member assessments receivable, non-current	$ 25,412,121	$ 31,767,402

4. CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2018 was as follows:

	Balance at July 1, 2017	Additions	Disposals	Balance at June 30, 2018
Investment in building	$ 3,180,029			$ 3,180,029
Equipment	373,049	$ 5,639		378,688
Total	3,553,078	5,639		3,558,717
Less accumulated depreciation	(2,172,129)	(125,472)		(2,297,601)
Capital assets - net	$ 1,380,949	$ (119,833)	$	$ 1,261,116

Capital assets activity for the year ended June 30, 2017 was as follows:

	Balance at July 1, 2016	Additions	Disposals	Balance at June 30, 2017
Investment in building	$ 3,182,181		$ (2,151)	$ 3,180,029
Equipment	359,164	$ 13,885		373,049
Total	3,541,345	13,885	(2,151)	3,553,078
Less accumulated depreciation	(2,042,478)	(130,839)	1,188	(2,172,129)
Capital assets - net	$ 1,498,867	$ (116,954)	$ (963)	$ 1,380,949

5. UNPAID CLAIMS AND CLAIM ADJUSTMENT EXPENSES

As discussed in Note 1, SELF establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses, both allocated and unallocated. The following represents changes in those aggregate liabilities during the years ended June 30:

	2018	2017
Unpaid losses and loss adjustment expenses, beginning of fiscal year	$ 102,883,006	$ 116,221,836
Incurred losses and loss adjustment expenses:		
Provision for insured events of the current year	5,958,335	5,434,067
Increase (decrease) in provision for insured events of prior years	3,327,540	(2,447,467)
Total incurred losses and loss adjustment expenses	9,285,875	2,986,600
Payments:		
Losses and loss adjustment expenses attributable to insured events of the current year		
Losses and loss adjustment expenses attributable to insured events of prior years	14,072,870	16,325,430
Total payments	14,072,870	16,325,430
Total unpaid losses and loss adjustment expenses, end of fiscal year	$ 98,096,011	$ 102,883,006

The components of the unpaid claims and claim adjustment expenses as of June 30, 2018 and 2017 are as follows:

	2018	2017
Reported claims	$ 42,940,730	$ 50,966,102
Claims incurred but not reported (IBNR)	45,913,729	44,408,799
Unallocated loss adjustment expenses (ULAE)	9,241,552	7,508,105
Total unpaid claims and claim adjustment expenses	98,096,011	102,883,006
Unpaid claims and claim adjustment expenses, current	(9,966,000)	(8,778,000)
Unpaid claims and claim adjustment expenses, noncurrent	$ 88,130,011	$ 94,105,006

These liabilities are reported at their present value using an expected future investment yield assumption of 1.75% for the Excess Liability Program and 2.75% Excess Workers' Compensation Program for the years ended June 30, 2018 and 2017. The undiscounted liability at June 30, 2018 and 2017 was $120,040,982 and $125,292,006, respectively.

6. EMPLOYEE RETIREMENT PLAN

Plan Description

SELF provides pension benefits to its employees through the Miscellaneous Risk Pool through its participation in the Public Agency Cost-Sharing Multiple-Employer Plan (the Plan) a defined benefit pension plan maintained by CalPERS, an agency of the State of California. SELF had less than 100 active members as of the June 30, 2013 and 2014 actuarial valuation, as a result, qualified employees are covered under the Miscellaneous 2% at 55 Risk. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. CalPERS issues a publicly available financial report that includes financial statements and required supplementary information for this plan. This report is available online at www.calpers.ca.gov.

The California Legislature passed and the Governor signed the "Public Employees' Pension Reform Act of 2013" (PEPRA) on September 12, 2012. PEPRA contained a number of provisions intended to reduce future pension obligations. PEPRA primarily affects new pension plan members who are enrolled for the first time on or after January 1, 2013. Benefit provisions and other requirements are established by State statute.

Benefits Provided

The benefits for the Plan are established by contract with CalPERS, in accordance with the provisions of the California Public Employees' Retirement Law (PERL). The benefits are based on members' years of service, age, average salary over a specific period, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. To be eligible for service retirement, members must be at least 50 and have a minimum of five years of CalPERS-credited service. Members after January 1, 2013 must be at least 52. The reduced benefit at these ages are 1.426% and 1% for the Classic and PEPRA plans, respectively.

Contributions

Section 20814(c) of the PERL requires employer contribution rates for all public employers be determined on an annual basis by the actuary and are effective on the July 1 following notice of a change in the rate. The contributions are determined through the CalPERS' annual actuarial valuation process. The Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. SELF is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. SELF's required contribution rate on covered payroll for the measurement period ended June 30, 2017 (the measurement date) was 8.921% and 6.533% of annual pay for Classic and PEPRA employees, respectively, and an additional lump sum payment of $125,523 toward the unfunded liability. Employer contributions rates may change if plan contracts are amended. SELF makes the contributions required of certain SELF employees on their behalf and for their account. For the year ended June 30, 2018, the employer contributions to the plan were $236,978.

Pension Liabilities, Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

SELF's Net Pension Liability (NPL) for the Plan is measured as the proportionate share of the NPL. The NPL of the Plan is measured as of June 30, 2017 for the year ended June 30, 2018. The total pension liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 using standard update procedures. As of June 30, 2018, SELF's proportionate share of the Plan's NPL was $785,612.

The NPL of the Plan is measured as of June 30, 2016 for the year ended June 30, 2017. The total TPL used to calculate the NPL was determined by an actuarial valuation as of June 30, 2015 rolled forward to June 30, 2016 using standard update procedures. As of June 30, 2017, SELF's proportionate share of the Plan's NPL was $676,383.

Using SELF's individual employer rate plan's share of the risk pool TPL and Fiduciary Net Position (FNP), the proportionate shares of the TPL and FNP at the measurement date are determined for SELF by the actuary. SELF's employer NPL allocation factor for the Plan as of June 30, 2017 was as follows:

	Plan
Proportion - June 30, 2017	0.019929%
Proportion - June 30, 2016	0.019471%
Change - increase (decrease)	0.000458%

For the years ended June 30, 2018 and 2017, SELF recognized pension expense of $307,579 and $71,672, respectively.

At June 30, 2018, SELF reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 1,181	$ (16,916)
Changes in assumptions	146,499	(11,171)
Net differences between projected and actual investment earnings of pension plan investments	33,132	
Change in proportions	36,545	
Change in proportionate share of contributions	43,604	
Pension contributions subsequent to measurement date	236,978	
Total	$ 497,939	$ (28,087)

As of June 30, 2018, the $236,978 reported as deferred outflows of resources related to employer contributions subsequent to the measurement date will be recognized as a reduction of the NPL in the year ending June 30, 2019. As of June 30, 2018, other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30		
2019	$	64,328
2020		114,190
2021		74,028
2022		(19,672)

At June 30, 2017, SELF reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 3,768	$ (863)
Changes in assumptions		(35,649)
Net differences between projected and actual investment earnings of pension plan investments	185,539	
Change in proportions		(11,186)
Change in proportionate share of contributions	12,388	
Pension contributions subsequent to measurement date	151,704	
Total	$ 353,399	$ (47,698)

As of June 30, 2017, the $151,704 reported as deferred outflows of resources related to employer contributions subsequent to the measurement date that was recognized as a reduction of the NPL in the year ending June 30, 2018. As of June 30, 2017, other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30		
2018	$	9,359
2019		12,902
2020		83,678
2021		48,057

Actuarial Assumptions

For the measurement period ended June 30, 2017 (the measurement date), the TPL was determined by rolling forward the June 30, 2016 TPL. The June 30, 2016 and June 30, 2017 TPL were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table[(1)]	Derived using CalPERS' Membership data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

[(1)] The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

Changes in Assumptions

For the measurement period ended June 30, 2017, the financial reporting discount rate for the PERF C was lowered from 7.65% to 7.15%.

Discount Rate

The discount rate used to measure the TPL was 7.15% and reflects the long-term expected rate of return for the Plan net of investment expenses and without reduction for administrative expenses. To determine whether the municipal bond rate should be used in the calculation of the discount rate for public agency plans (including PERF C), the amortization and smoothing periods adopted by the Board in 2013 were used. For the Plan, the crossover test was performed for a miscellaneous agent plan and a safety agent plan selected as being more at risk of failing the crossover test and resulting in a discount rate that would be different from the long-term expected rate of return on pension investments. Based on the testing of the plans, the tests revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for PERF C. The crossover test results can be found on CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

Asset Class	New Strategic Allocation	Real Return Years 1 – 10[a]	Real Return Years 11+[b]
Global Equity	47.00%	4.90%	5.38%
Fixed Income	19.00%	0.80%	2.27%
Inflation Sensitive	6.00%	0.60%	1.39%
Private Equity	12.00%	6.60%	6.63%
Real Estate	11.00%	2.80%	5.21%
Infrastructure and Forestland	3.00%	3.90%	5.36%
Liquidity	2.00%	-0.40%	-.90%
Total	100.00%		

[a] An expected inflation of 2.5% was used for this period.
[b] An expected inflation of 3.0% was used for this period.

Sensitivity of SELF's Proportional Share of the NPL to Changes in the Discount Rate

The following presents SELF's Proportional Share of the NPL of the Plan as of the June 30, 2017 measurement date, calculated using the discount rate of 7.15%, as well as what SELF's Proportional Share of the NPL would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15%) or 1 percentage-point higher (8.15%) than the current rate:

	Discount Rate – 1% (6.15%)	Current Discount Rate (7.15%)	Discount Rate + 1% (8.15%)
SELF's Proportionate Share of Plan's NPL	$ 1,224,654	$ 785,612	$ 421,990

The following presents SELF's Proportional Share of the NPL of the Plan as of the June 30, 2016 measurement date, calculated using the discount rate of 7.65%, as well as what SELF's Proportional Share of the NPL would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65%) or 1 percentage-point higher (8.65%) than the current rate:

	Discount Rate – 1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate + 1% (8.65%)
SELF's Proportionate Share of Plan's NPL	$ 1,053,787	$ 676,383	$ 364,477

Total payments	3,916,125	5,766,682
Total unpaid claims and claim adjustment expenses, end of year	$ 69,566,763	$ 75,880,661

The components of the unpaid claims and claim adjustment expenses as of June 30, 2018 and 2017 were as follows:

	2018	2017
Reported claims	$ 37,152,932	$ 42,914,327
Claims incurred but not reported	24,189,028	26,401,260
Unallocated loss adjustment expenses	8,224,803	6,565,074
	$ 69,566,763	$ 75,880,661

The tables that follow illustrate how the Fund's earned revenues (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Fund as of the end of each of the previous ten years for the Liability and Workers' Compensation Programs. The rows of the tables are defined as follows:

1. Total of each fiscal year's gross earned premiums, rate credits, amounts of premiums ceded, and reported premiums (net of reinsurance) and reported investment revenue allocated to each policy year.

2. Each fiscal year's other operating costs of the Program including overhead and loss adjustment expenses not allocable to individual claims.

3. Program's gross incurred losses and allocated loss adjustment expense, losses assumed by reinsurers, and net incurred losses and loss adjustment expense (both paid and accrued) as originally reported at the end of the year in which the event that triggered coverage occurred (called policy year).

4. Cumulative net amounts paid as of the end of successive years for each policy year.

5. Latest reestimated amount of losses assumed by reinsurers for each policy year.

6. Policy year's net incurred claims as of the end of successive years. This annual reestimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known.

7. Compares the latest reestimated net incurred claims amount to the amount originally established (line 5) and shows whether this latest estimate of claims cost are greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

8. Outstanding unpaid claims and claim adjustment expenses as of June 30, 2018 for each policy year.

The columns of the tables show data for successive policy years.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

Board of Directors and Members
Schools Excess Liability Fund
Sacramento, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Schools Excess Liability Fund (SELF), which comprise the statements of net position as of June 30, 2018 and 2017, and the related statements of revenues, expenses, and changes in net position and of cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated October 12, 2018.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statements, we considered SELF's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of SELF's internal control. Accordingly, we do not express an opinion on the effectiveness of SELF's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, sucsh that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether SELF's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of SELF's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering SELF's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
