## Announcement to Distributors

Dear Partners,

It is our pleasure to announce to you that our improved Toric Calculator and the new **Medicontur IOL Optimizer** has been launched as of today.

Our main goal is to provide the highest level of professional support to surgeons and to assist them with the most precise and reliable IOL calculations in order to achieve the utmost satisfaction level of patients.

The use of the improved Toric Calculator is significantly easier and faster than that of its predecessor.

The new IOL Optimizer was designed to be compatible with all Medicontur IOLs, not just the Toric IOL.

You can visit the new revolutionary **Medicontur IOL Optimizer** directly at [www.toriccalculator.net](http://www.toriccalculator.net), or you can access it from the Medicontur website's bottom right corner. Prior to using the calculators we recommend you read the instructions and method of use which you can find in the Tutorials. First you need to register on the online site, thus all your professional details will appear automatically.

We hope that the new calculators will be to your help and satisfaction and that you will use them regularly.

If you have any questions or need help with the calculators, do not hesitate to contact us at [toric@medicontur.hu](mailto:toric@medicontur.hu) or [scientific@medicontur.com](mailto:scientific@medicontur.com).

Best regards,

Sabrina Duquesnoy
