

## BREATHE LYRICS BY BIMI

### Verse 1

Trying so hard could get you wrong sometimes  
New mornings and chapters make you realise  
We live and we learn, life has its moments  
And that's how it goes now  
But you'll find your feet again

### Chorus:

When life gets heated up  
And you feel you want to leave  
It ain't funny  
All you have to do is Breathe  
Inhale when it all begins  
Exhale don't try to keep it in  
And I know it won't be easy  
But you have to, you have to  
Let go X 10

### Verse 2

When you feel the weight is pulling you down  
Hold on darling, hold on  
and the walls are falling all around  
Hold on will you, hold on  
Tell yourself I have what it takes  
Can't stop moving or step on the brakes  
I'll try to figure it out  
You have to believe in yourself and just Breathe

### Chorus:

When life gets the best of you  
And you feel you want to leave  
I know it ain't funny now  
All you have to do is Breathe  
Inhale when it all begins  
Exhale don't try to keep it in  
And i know it wont be easy  
You have to, You have to Breathe...

Just Breathe....  
Let go, let go oh
