

WHAT YOU NEED TO KNOW BEFORE YOUR CUSTOM AIRBRUSH TAN

PREPARE

FIRST THINGS FIRST, IT'S IMPORTANT THAT YOU PREPARE YOUR SKIN FOR YOUR TAN BY CLEANSING, SHAVING & EXFOLIATING BEFORE YOUR APPOINTMENT.

*DON'T USE ANY PRODUCTS ON YOUR SKIN THAT WOULD CREATE A BARRIER AGAINST YOUR TAN (IE. LOTION, FACE CREAM, DEODORANT, ETC.)

MAINTAIN

THE KEY TO MAINTAINING YOUR TAN IS TO MOISTURIZE DAILY, TWICE A DAY WOULD BE IDEAL!

*SOME MOISTURIZERS MAY REACT WITH YOUR TAN CAUSING IT TO FADE FASTER OR APPEAR "PATCHY". USING SPECIALLY FORMULATED FAKE BAKE PRODUCTS IS THE BEST OPTION.

TRY NOT TO TAKE LONG, HOT SHOWERS & AVOID USING HARSH SHOWER GELS OR BODY WASHES THAT CAN STRIP THE OILS & MOISTURE FROM YOUR SKIN.

PROLONG YOUR TAN

TO PROLONG THE LIFE OF YOUR TAN, USING AMPLIFY®, A SPECIALLY FORMULATED FAKE BAKE PRODUCT WILL NOT ONLY ENHANCE YOUR TAN, BUT IT WILL BOOST MELANIN PRODUCTION ALLOWING YOUR TAN TO FADE EVENLY WHILE GRADUALLY ADDING PIGMENT & MOISTURE TO YOUR SKIN.
