

“Attention ALL Parents”:
We Need Everyone’s Help Please

Park View Elementary manages the recycling center twice a year to earn a percentage of the profits. For the 2018/2019 school year, we are responsible for September and February. This is a great fundraising opportunity as well as a good way for students to earn volunteer credit.

K – 6th Grades can earn \$10/hr up to \$200 for Science camp! (Cost of Science Camp is \$325)
7th & 8th Grades can earn \$10/hr up to \$100 for San Francisco Trip! (Cost of SF trip is approx. \$130)

***** The ins-and-outs of Recycling *****

To say there is literally tons of cardboard to recycle is an under statement. But with your help we are able to keep up with Ripon’s need. There are four things we do.

- 1) We have fun. For safety / liability reasons a parent is required to be present with his/her student. You can choose to send your student with an adult friend, but that is between you and him/her. We try to make things as fun as possible.
- 2) We will bail /crush as much cardboard as possible. We have the students pick up all the little pieces and place them into big boxes for easy moving and crushing. Students will transport cardboard only. They are not allowed around the compactor. The adults usually prepack / breakdown boxes and place them into larger boxes for the same reasons as above.
- 3) We will fill the E-Waste bin. There is a large electronic waste box that we will open and fill up. For it to be cost effective, it must be filled full. It must be filled from the back to front and from the bottom to top, so to be completely filled.
- 4) We will police the area and pick up trash.
