

Birthday Book Program

Helps our library grow!!

What is a Birthday Book? It is a book that is purchased for \$15.00 by family or friend and presented to a student in honor of their birthday during our monthly assembly, usually the one closest to the student's birthday. The student keeps the book for two weeks and then returns to the school library. The student's picture, birthdate and presentation date will be placed inside the front cover of the book. The book will then be permanently added to the school library.

June, July, August, and September birthdays will be presented during the September assembly. March, April, and May birthdays will be presented in March. There is no book presentation in April and May due to Book Fair and end of year activities.

Books are ordered in advance and kept in the library for purchase. These preselected titles have been recommended by teachers, students or were placed on a state recommended or accelerated reading list. Books may be purchased any time during the school year and can be held until the student's birthday as long as the book was paid for in advance.

Please fill out the form below and return to the office or library with your payment. Cash or checks made payable to Park View Elementary

If you do not select a book at the beginning of the school year, an attempt will be made to contact you when it is time to select a book.

Parents are welcome to come to the library to select a birthday book. Library is usually open before school and after school until 4:00 p.m. During school hours are reserved for classroom use.

This program helps our library to continue to grow and purchase more books for students to enjoy. If you have any further questions, please contact Janeen King, Librarian at 599-1882
