## FEATURING OUR SPECIAL GUEST SPEAKER **CISCOE MORRIS**

Gardening PROFESSIONALLY since the age of 10, when he badgered his way into filling an assistant gardener position posted by his family's church, Ciscoe Morris has been gardening, speaking, leading gardening tours and teaching ever since. After hitchhiking his way from Wauwatosa, Wisconsin, to the Pacific Northwest, he earned a degree in horticulture from South Seattle Community College. He is also a master gardener and a certified arborist. Ciscoe spent 24 years transforming the vast campus of Seattle University into the only campus in Washington to have been designated a wildlife sanctuary. Today, he can also be found on television and on his ever-popular radio show, "Gardening with Ciscoe", featuring, as one writer described it, "hot talk for the horticulture set." Called Mr. Bugman by school kids, he's energetic, engaging, silly, and mischievous, characteristics evident in the title of his 2006 best-selling book, *Ask Ciscoe: Oh La La! Your Gardening Questions Answered*. Join us in welcoming this famous and somewhat infamous garden guru and enjoy his presentation in Homer. You'll be so glad that you did!!
