Overview

- Voting in the Midterm Elections
- Attitudes about Trump
- Trump and U.S. Race Relations
- Views on Immigrants and Immigration
- Message Testing
- Mobilization and Issues
Poll targets registered voters in highly competitive midterm-election races, across 61 congressional districts (N = 2,045)

Respondents are from non-urban areas (which not only tend to have smaller minority populations but are also more likely to be “toss-up” elections)

- Our design is consistent with that of other surveys (e.g., June 27-July 2, 2018 Washington Post-Schar School poll), and our results are similar. This gives us confidence in the accuracy of our polling methods.

- Our survey is unique because it contains over-samples of African American (n = 400), White (n = 400), Latinx (n = 400), Asian/Pacific Islander (n = 400), and Native American (n = 400) voters.

- The margin of error is +/- 2.1% for the overall survey and +/- 4.8% for the racial and ethnic group subsamples.
Voting in the Midterm Elections
Certainty of Voting in the Midterm

Thinking about the election for Congress and other state offices in November 2018, how likely are you to vote on a scale between 0 and 10, where 0 means you definitely do not want to vote, and 10 means you are 100% certain you will vote, and 5 means you are 50-50 or a maybe.

[Bars = average Vote Certainty scores]

The Trump admin. policy used to require immigration enforcement officials to detain unauthorized border crossers, or people fleeing violence and seeking asylum, including parents and their young children. The parents were put into the federal criminal court system, which meant they were separated from their children, in some cases they were taken to different states. As a result, at least 2,700 children were split from their parents in 2018 alone. Do you Agree/disagree (with this policy)?

[Bars = % Total Agree vs. % Total Disagree].

Trump recently said: “you wouldn’t believe how bad these people are. These aren’t people. These are animals. And we’re taking them out of the country.” When you hear the president say that do you think that:

[Bars = % of Rs who believe this statement matches their opinion].

- Trump was only referring to gang members when calling them animals
- Trump was blurring the line and referring to all undocumented immigrants as animals

Responses to Popular Immigration Messages
What If A Candidate Said…

Below are two statements from candidates running for Congress – which candidate are you more likely to support?

[Bars = % of Rs who believe this statement matches their opinion].

- America has too many illegal immigrants, they hurt the economy, bring crime, violence and gang violence to our cities. We have to crack down on illegal immigration.
- Attacks on immigrants have gone too far. The immigrants I know are hard-working and contribute to America. They are not criminals or gang members. Enough already.

Source: July 2018 Midterm Survey (N=2,045 total; n = 400 per racial/ethnic group)
What If A Candidate Said…

Below are two statements from candidates running for Congress – which candidate are you more likely to support?

[Bars = % of Rs who believe this statement matches their opinion].

- Immigrants are taking jobs away from real Americans and hurting our economy. We have to stop illegal immigrants from ruining America and protect America first.
- Immigrants just want to provide a better life for their families, just like you and me. I support legislation to make America more welcoming to immigrants, not exclude them.

Source: July 2018 Midterm Survey (N=2,045 total; n = 400 per racial/ethnic group)
A candidate for office recently said, “Many of the Central American immigrants coming to the United States are violent gang members that rape or murder innocent Americans, we must have zero-tolerance for any illegal immigration.”

Would this statement affect how you vote?

[Bars = % of Rs who believe this statement matches their opinion].

- That statement doesn’t really affect how I would vote
- That’s untrue and it’s racist against Central Americans and Latinos, I would never vote for that candidate
- It may not be politically correct, but it's true - I would consider voting for that candidate
