

# EXCEED

Superior Legume Inoculant

## Soybeans

# LIQUID

[www.visjonbiologics.com](http://www.visjonbiologics.com)

Contains: *Bradyrhizobium japonicum*

### Product 1003

Treats 10,000# of seed or 200 units

Net Liquid 340 fl. oz.

Package Configuration: 1 unit per case, 80 cases per pallet

### Product 1004

Treats 2500# of seed or 50 units

Net Liquid 85 fl. oz.

Package Configuration: 4 units per case, 48 cases per pallet

### Directions for Use:

#### On-Seed Application

- Shake container to achieve well mixed product.
- Apply EXCEED LIQUID FOR SOYBEANS at 3.4 oz. per 100 pounds of seed. Make sure soybean seeds and inoculant are well mixed to cover all seeds with liquid.
- Over application can cause sticky seeds and clumping of seeds. Allow seeds to dry and stir to break up clumps.
- Contact Visjon Biologics Representatives for recommendations on use in combination with fungicides and insecticides.

#### In-Furrow Application

- Shake container to achieve well mixed product and empty into clean delivery tank. Add clean non-chlorinated water to achieve convenient delivery rate, typically 5 to 15 gallons/acre. Applicator should be calibrated to achieve recommended rate.
- Apply EXCEED LIQUID FOR SOYBEANS in-furrow at a rate of .5 to 1 oz. per 1000 ft. of row. One 85 oz. container at the 1 oz. rate will treat 12.5 acres in 30" rows.
- In-furrow application should be directly on the seed or in the seed furrow, not to the side, above or below the seed. Product should be used within 24 hours of mixing in water.

### Storage of EXCEED LIQUID FOR SOYBEANS:

- AVOID STORAGE IN DIRECT SUNLIGHT AND STORE PRODUCT AT TEMPERATURE UNDER 78° F.
- KEEP PRODUCT COOL AND OUT OF SUNLIGHT AND ONLY OPEN WHEN READY TO USE.
- EXCEED LIQUID FOR SOYBEANS CARRIES A TWO-SEASON SHELF LIFE AND SHOULD BE USED BEFORE EXPIRATION.

### EXCEED LIQUID FOR SOYBEANS IS NOT A PLANT FOOD PRODUCT.

**EXCEED LIQUID FOR SOYBEANS IS A NATURALLY OCCURRING BRADYRHIZOBIUM JAPONICUM THAT FORMS NODULES ON THE ROOTS OF THE SOYBEAN PLANT AND CONVERTS ATMOSPHERIC NITROGEN TO A FORM THAT THE PLANT CAN USE. THIS IS A NATURALLY OCCURRING SYMBIOTIC RELATIONSHIP BETWEEN THE SOYBEAN PLANT AND BRADYRHIZOBIUM THAT PROVIDES THE SOYBEAN PLANT WITH THE MAJORITY OF THE NITROGEN REQUIRED BY THE PLANT.**

### Precautionary Information:

While EXCEED LIQUID FOR SOYBEANS is completely organic and non-toxic, Visjon Biologics recommends the use of gloves and eye protection while using this product.

### Minimum Guarantee:

Product contains *Bradyrhizobium japonicum* in an aqueous carrier containing of 5 Billion ( $5 \times 10^9$ ) viable cells per gram.

### Limited Warranty:

VISJON BIOLOGICS GUARANTEES THIS CULTURE TO PRODUCE SATISFACTORY NODULE FORMATION AND NITROGEN FIXATION UNDER FAVORABLE CONDITIONS OF SOIL AND CLIMATE WHEN USED BEFORE EXPIRATION DATE AND APPLIED UNDER THE MANUFACTURER'S SPECIFICATIONS, OR PURCHASE PRICE WILL BE REFUNDED. A VISJON BIOLOGICS REPRESENTATIVE MUST BE NOTIFIED OF ANY FIELD COMPLAINT WITHIN FIFTY (50) DAYS AFTER PLANTING. MANY FACTORS OTHER THAN NODULATION AFFECT CROP PERFORMANCE. VISJON BIOLOGICS ASSUMES NO RESPONSIBILITY FOR LOSS OR PARTIAL LOSS OF CROP FROM ANY CAUSE WHATSOEVER. THIS LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED. THE LIMITED WARRANTY IS VOID WHERE PROHIBITED BY LAW. IF YOU HAVE ANY QUESTIONS ABOUT THIS PRODUCT OR ANY OTHER VISJON BIOLOGICS PRODUCT, CALL 940-264-0343 FOR ASSISTANCE.
