

## Writing a Better Future Competition

Take part in our competition to write interactive fiction drawing upon some of the ideas in our green stories website [www.greenstories.org.uk](http://www.greenstories.org.uk). This competition is sponsored by [the UK and Ireland Chapter of the UN Principles of Responsible Management Education](#)

Free to enter, prizes (£750) and publication opportunities.

Deadline 3<sup>rd</sup> Feb 2020

We are looking for **Interactive Fiction** that touches upon ideas around building a sustainable society. We will consider all genres – comedy, drama, science fiction, mystery, crime etc. – but stories must engage with the idea of environmentally sustainable practices/societies.

Details on <http://www.greenstories.org.uk/interactive-fiction/>

### Resurrection Trust

We have just completed a very successful short story competition. The resulting anthology of short stories 'Resurrection Trust' with a foreword by Caroline Lucas and review by Jonathan Porritt is now available. It is a collection of funny, dark, mad, bad, upbeat, downbeat and fantastical short stories about living sustainably and might provide writers with ideas how to integrate green issues into great stories.
