

Kyvalley Dairy engages OFS for real-time productivity/efficiency monitoring

MELBOURNE, VICTORIA, 15 February 2012 - Operations Feedback (OFS) a leading provider of real time productivity improvement software products, announced today that it has been selected by Kyvalley Dairy for the provision of the core OFS suite at the processing facility in Kyabram Victoria.

“We realise that investing in technology solutions is a must have for our business, and if we don’t we face the risk of being left behind” said Mr Wayne Mulcahy, C.E.O. “OFS is going to provide us with an invaluable insight into the efficiency of our filling line, via several OFS monitors we will also get a precise understanding of the performance of crucial elements in the production process such as our labeller, packer, and robot/palletiser.”

“OFS has already been deployed across many filling lines with great success, and with the passion and energy of Wayne and his team we are certain that success will continue with Kyvalley Dairy”, said Mr. James Magee, National Sales Manager for OFS.

About Kyvalley Dairy:

A third generation family business, Kyvalley Dairy is one of the largest dairy farm operations in Victoria producing 25 million litres of milk annually. Operating in the Goulburn Valley for over 100 years, Kyvalley Dairy moved operations to the outstanding Kyabram facility in 2000 with products produced including Full Cream Milk, Reduced Fat Milk, No Fat Milk, Frothing Milk and Flavoured Milk ranging from 250ml to 3 litres.

About OFS (Operations Feedback): (www.ofsystems.com)

OFS is an Australian company specialising in productivity and efficiency improvement (OEE) software for the manufacturing industry. Over 2,500 operators are using OFS technologies in several industries: printing, packaging, labelling, cereals, confectionary, beverage, chemical, blow moulding, pharmaceutical and more. Customers of OFS include Heinz, Labelmakers, Visy, Brickwood Holdings, Murray Goulburn, Sanitarium, Amcor, HB Fuller, Food Plastics, Kraft/Cadbury, PACT Group and Golden Circle.
