

The Thask

Thask you may, but Thask you should not.
A Thask is not the way
To get what you want.

What is a thask?
Your wondering mind asks...
Well my friend, I'm so glad you asked.

A thask is a serious offense!
A thask is thoughtless!
It may even cost you your friends!

A thask is lazy!
Some may even say cheap!
It loses friends that you want to keep!

A thask is not one thing, but two—
It's saying thanks for all that you do!
While asking again a moment too soon!

It takes away anything sincere
And makes one feel like
they are not very dear.

So do you see how one may view a thask
to be a very unproductive task?

Do you see how many friends you could lose?
In the short amount of time
It takes to tie your shoes?

Instead of mixing them up,
And squeezing them in a space too tight,
You should slow down
And take the time to thank them right.

Then when maybe a day has passed,
You can approach them
With a very vice ask.
