

Dunamar Gardens

Quilt Measures 48" x 72"
Blocks Measure 6" x 6" finished.

On a recent trip to a Mexican Resort I was fascinated by the little pops of flower colors against the many greens of the foliage. I couldn't resist including the most perfect sand I've ever walked in in this simple quilt! This quilt is Fat Quarter Friendly.

Fabric Requirements

- Fabric A: (background and border) 12 Fat Quarters
- Fabric B: (floral prints) 5 Fat Quarters
- Fabric C: (Inner border) 2 Fat Quarters

Cutting Directions

From Fabric A Fat Quarters

- Cut 7 Strips 2 1/2" wide. Set 2 strips aside for border.
- Cut each of 5 strips into 2 1/2", 2 1/2", 6 1/2", 6 1/2" sections.

From Fabric B Fat Quarters

- Cut 5 strips 2 1/2" wide. Set 3 strips aside for binding.
- Cut each of the 2 remaining strips into 2 1/2" sections. (you will need 12 of each)

From Fabric C Fat Quarters

- Cut 7 strips 2 1/2" wide.

Sewing Directions

- Arrange and sew Fabric A and Fabric B units using the following diagram. Press all seam allowances away from the centre square. Sew 60 units.

- Arrange the blocks and sew them together into rows. Note: rotate every other block so seams are vertical rather than horizontal for easier piecing and pressing.
- Sew the rows together into the quilt top.

Sewing Borders

- Join Fabric C units into one long length.
- Measure, cut and sew the inner border strips to the long sides and then the short sides of the quilt. Press seams to the borders.
- With remaining Fabric A strips, sew 6 strips together in random order. Cut into 4 1/2" sections.

- Sew the sections together for the side borders and then for the top and bottom borders.

- Layer the quilt top with batting and backing and quilt.
- Sew remaining Fabric B strips into one long length and stitch to the finished quilt for binding.
