

# JULY RC NEWS

When it comes to children, there isn't anything that a parent wouldn't do to keep their child happy, safe, and healthy. When a child is sick, the focus is on getting them healthy. When a child is healthy, the focus should be on staying healthy. Chiropractic care has been reported as the most common complementary and alternative form of intervention for children.

Did you know at Restoration Chiropractic we have **FAMILY CARE PLANS** available for the whole family to make care **THE MOST** affordable?

*Schedule your family for a complimentary evaluation at the front desk & ask about our Family Care Plan for more details!!*

Where to find the RC team in the community this month?
