Accessing the BYOD Wireless Network - Apple

1) Navigate to the **Wireless (Wi-Fi) Settings** area of the device.

2) Make sure the **Wi-Fi Setting** is turned **ON**.

3) Choose the appropriate wireless network from the list of options.
>   All Staff and Students will choose:
>   **GCPS-Mobile**

4) Log in using the same **Username** and **Password** you use to log in to the computer.
Click **Join**.

5) You may see additional pop-ups.

   If presented with a certificate screen, click **More Details** to verify certificate references are **Gwinnett County Public Schools**.

   Then return to the **Certificate** screen and click **Trust**.

6) You should now be connected to the GCPS Wireless Network.
