Article XLII.

Article XLIII. Section 507. Corridor Overlay District

507.1 Intent of the District. The following standards are intended to address the site plan layout considerations for the development of public and private property within the Development Corridors. These requirements are set forth to establish a unifying theme for the Development Corridors by implementing several key streetscape elements along both sides of the highways. This section also specifies minimum performance standards for site planning considerations as they apply to the opportunities for new development on vacant properties and rehabilitation of already developed properties within the Development Corridors. Specific purposes of the district are;

- a) To create a streetscape improvement plan that addresses the implementation of a united theme for street tree planting and light fixtures adjacent to the public right-of-way throughout the Development Corridors,
- b) To facilitate any future highway improvements by the South Carolina Department of Transportation,
- c) To require intensive land uses to provide adequate buffering and screening for the protection of existing and emerging residential neighborhoods to the rear of commercial development,
- d) To provide for beautification of individual properties by requiring minimum standards for internal landscaping of parking lots, and
- e) To encourage the consolidation of driveway access points in order to better increase safety and facilitate traffic movement.

507.2 Application. These performances standards are applicable to all new construction, rehabilitation of construction, and remodeling or renovation projects, as well for properties for which zoning is requested within the corridors, except as specified herein. Compliance with the regulations set forth in this ordinance shall be required when a building permit is issued or when an application for rezoning is approved unless it is demonstrated that work necessary to bring the property into compliance with this ordinance will be undertaken simultaneously with a development, rehabilitation, remodeling or redevelopment project.

Requirements and specifications of this ordinance are applicable to all properties which are within town limits. The standards shall extend back to a depth of four hundred (400) feet from the centerline of all roads from highways 133, 137, Old Seneca Road and Liberty Highway.

The Development Corridors are currently characterized by a mixture of existing uses that include free-standing commercial shopping centers, apartments, single family residences, mobile homes, and a number of vacant or underdeveloped properties. Although there are a fair number of existing single-family homes, the area is in transition. Many of these homes may eventually be replaced with strip commercial development or converted to small free-standing businesses. The future land use pattern will most likely include a greater amount of professional offices, shopping centers, free-standing commercial activities, and multifamily residential uses.

Properties in the Development Corridors are subject to the zoning regulations in the adopted Zoning Ordinance for the Town of Six Mile, South Carolina, and depicted on the Official Zoning Map. The standards herein will thus function as overlay requirements for properties within the town limits of Six Mile.

The site planning performance standards and associated requirements included herein shall serve as the criteria by which all projects within the corridors will be reviewed. These standards will apply to all new developments and redevelopment projects with the exception of the construction, rehabilitation, or remodeling of individual single family residences.

507.3 Exemptions. The following activities shall be exempt from the requirements of Section 507:

- A) If a building permit is sought for construction, rehabilitation, or the remodeling of a single-family home, the regulations of this ordinance shall not apply.

- B) If an application for a zoning change is filed, the subject parcel shall not be required to be bought into conformance with this ordinance until a building permit is sought, or until the parcel is used for a non-single family residential activity.

507.4

GENERAL REGULATIONS

- A. Building Placement. All new development or redevelopment projects are required to adhere to the minimum yard requirements as set forth in the applicable zone of the Town of Six Mile Zoning Ordinance.

 - 4) When a building permit is requested for renovation or redevelopment of a previously developed site, and where the required eight (8) foot planting strip does not exist, street trees are required as outlined in Section 302. If a railroad or a utility right-of-way separates the perimeter from a Town right-of-way, the planting strip requirement and the tree planting requirements must still be met as outlined above.
 - 5) If a building is in existence prior to the adoption of this ordinance and situated less than fifty-five (55) feet from the highway right-of-way, the street tree planting requirements in Section 302 shall be waived.

507.5 Parking Lot Landscaping. All parking lots under the jurisdiction ordinance shall comply with the following standards:

These small trees shall be located so as not to interfere with street tree planting within the public right-of-way.

- C) Whenever the impervious (paved) cover exceeds 10,000 square feet, an area equal to 10% of the total impervious surface must be provided for landscape purposes and tree planting. This 10% requirement is to be in addition to any required perimeter landscaping as outlined in 303.2 above. This interior landscaping can be accomplished by using a combination of shade trees and evergreen shrubs planted in landscaped islands within the parking lot. These islands should be a minimum of six (6) feet wide and the length of a standard parking bay.
- D) Where very large parking areas are required to meet ordinance requirements of the Town of Six Mile, they shall be designed as a series of smaller lots that provide space for no more than one hundred (100) vehicles each. The small parking lots shall be separated by maximum six (6) foot internal planting areas that feature trees planted in grass. In general, a series of smaller lots is aesthetically and functionally preferable to one large lot. The minimum six (6) foot wide separation strip will be in addition to the requirement for ten percent internal parking lot landscaping.

507.6

Screening. Screening of outdoor trash receptacles and utility equipment shall be in compliance with the following standards:

- A) Screening of outdoor trash receptacles and loading/storage areas shall require the installation of an opaque wooden fence or masonry wall at a minimum of six (6) feet in height. The fence or wall shall be constructed in combination with evergreen shrubs planted around the exterior rear and side foundation.
- B) Screening of outdoor utility equipment shall require the installation of an opaque wooden fence or masonry wall that is a minimum one (1) foot higher than the equipment to be screened. The fence or wall shall be

- 6) The maximum number of residents permitted in any dwelling shall be two (2) per bedroom unless the Zoning Administrator approves otherwise.

Article LXXIX. Section 722. Parking and Storage of Certain Vehicles.

It shall be unlawful for any person, partnership, corporation, or other legal entity to permit, park or store a truck, automotive vehicle or trailer of any kind or type, on any property within the municipal corporate limits: (1) that is not operable; (2) that does not display a lawful and current license tag; and (3) that does not have current liability insurance thereon. These vehicles must be stored in a completely enclosed building or in the rear yard behind a minimum of a 6' solid fence. Vehicles must be totally out of sight from the road and adjacent property. If property is used for commercial purposes the above rules apply except these vehicles may also be stored in the side yard.

Article LXXX. Section 723. Bufferyards

- 723.1 Purpose. The purpose of the bufferyard is to ameliorate the relationship between adjacent land uses including (1) minimizing nuisances and (2) promoting compatibility.

The bufferyard offers several options, each of which will buffer to an equivalent degree by varying distance (setback) and/or density (mass).

- 723.2 Definition. A bufferyard is a permanent unit of land, together with planting, fences, berms, walls, and other screening devices required thereon.

- 723.3 Location. Bufferyards shall be located on the outer perimeter of a lot or parcel, extending to the lot or parcel boundary line. Bufferyards shall not be located on any portion of an existing public or private right-of-way.
- 723.4 Determination of Bufferyard Requirements. To determine the bufferyard required between two adjacent parcels, the following procedure shall be followed:
- (1) Identify the proposed land use;
 - (2) Identify the use of lands adjacent to the proposed use;
 - (3) Determine the bufferyard required on each boundary (or segment thereof) of the proposed land use by referring to the Table of Bufferyard Requirements and Illustrations contained in Appendix B, which specify the bufferyard options required between a proposed use and the existing adjacent uses.
- 723.5 Responsibility for Bufferyard/Screening. A buffer shall be required along any property line that borders a property of less intense zoning, as specified herein.
- 723.6 Bufferyard Specifications. The illustrations included within this section specify the type and quantity of plant materials required by each bufferyard. The requirements are stated in terms of width of the bufferyard and the number of plants required per 100 feet of bufferyard. The requirements of a bufferyard may be specified by any one of the options illustrated. The "plant unit multiplier" is a factor by which the basic number of plant materials required for a given bufferyard is determined given a change in the width of that yard. Each illustration depicts the total bufferyard required between two uses. Whenever a wall, fence, or berm is required within a bufferyard, these are shown as "structures" in the following illustrations wherein their respective specifications also are shown.
- The exact placement of required plants shall be the decision of the developer except that evergreen (or conifer) plant materials shall be planted in clusters rather than singly in order to maximize their chances of survival and increase

screening. All bufferyard areas shall be seeded with lawn grass or suitable ground cover.

723.7 Minimum Plant Size. Plants shall be sufficiently sized to insure buffering and screening at the time of installation. Where the Bufferyard Illustration indicate a mass or line of plants parallel the length of the property line, the plant materials shall be sufficiently sized to insure obscurity at the time of installation. However, seeding plants may be used where berms or structures are required as part of the bufferyard.

Minimum Plant Sizes

Plant Material Type	Planting in Buffer yards Abutting Structures, Fences, Berms	All Other Plants
Canopy Tree Single Stem Multi-Stem Clump	1-1/2" Caliper 6' Height	2-1/2" Caliper 10' Height
Understory Tree	4' Height	1-1/2" Caliper
Evergreen Tree	3' Height	5' Height
Shrub Deciduous Evergreen	15" Height 12" Height	24" Height 18" Height

723.8 Bufferyard Substitutions.

- (1) Any existing healthy, well-formed plant materials which are greater than or equal to the recommended buffer and which otherwise satisfy the requirements of this section may be counted towards satisfying all such requirements.
- (2) Structures, where required, may be substituted with approval of the Planning Commission.

723.9 Use of Bufferyards. A bufferyard may be used for passive recreation; however, no plant material may be removed and such use shall not be a nuisance.

- 723.10 Containers and Dumpsters. All exterior dumpsters or exterior garbage containers (excluding containers of groups of containers with a combined capacity of less than six cubic yards) shall be screened on all but one side by a fence or wall, intensive landscaping, or other suitable opaque enclosure. The average height of the enclosure shall be one (1) foot more than the height of the container but shall not be required to exceed eight (8) feet in height. The open side shall not be visible from the street.
- 723.11 Fences and Walls - Appearance. All fences and walls used as part of the bufferyard requirements must have a finished side facing adjoining property. The interior side of the fence or wall may be finished as the owner deems appropriate. Where fences or walls are applicable bufferyard requirements, they shall be established along the inside line of the bufferyard, toward the proposed use, except for ornamental fences, which may be built on the property line.
- 723.12 Berms. Where required, berms may be located anywhere within the bufferyard, provided they parallel the property line.
- 723.13 Required Maintenance. The maintenance of required bufferyards shall be the responsibility of the property owner. And all such yards shall be properly maintained so as to assure continued buffering. Failure to do so is a violation of this Ordinance, and may be remedied in the manner prescribed for violations.

Article XCI. Section 724. Nuisance Abatement of Conditions Creating a Threat to the Public Health and Safety.

TOWN OF SIX MILE)
COUNTY OF PICKENS)
STATE OF SOUTH CAROLINA)

ORDINANCE
Section 724

Unsafe Dwellings and Structures

WHEREAS, the Mayor and Town Council find that there exists within the Town of Six Mile, South Carolina, certain dwellings and other structures which are unfit for human habitation and/or use due to: dilapidation, defects increasing the hazards of fire, accidents, or other calamities, lack of ventilation, light or sanitary facilities, and/or other conditions rendering such dwellings or structures unsafe or unsanitary, dangerous or detrimental to the health, safety, or otherwise inimical to the welfare of the residents of the town;

AND WHEREAS, the Town is authorized by Sections 5-7-30, and **31-15-10**, et seq, of the South Carolina Code of Laws (as amended), as well as the general laws of this state, to establish ordinances addressing the fitness and suitability of such dwellings and structures;

THEREFORE BE IT ORDAINED by the Town of Six Mile through its Mayor and Town Council, duly assembled, as follows;

Sec. 1.01 Power exercised by Zoning Administrator

Whenever it is determined that any of the conditions exist as described above, the Zoning Administrator of the town is hereby authorized to repair, close, or demolish, or cause to be repaired, closed, or demolished, any such dwelling or other structure in the manner hereinafter provided.

Sec. 1.02 Complaint notice and hearing

The powers to be exercised under this section shall be exercised by the Zoning Administrator.

Section 1.03 Order to repair or demolish

Whenever a complaint or petition is filed with the Town Clerk, or Zoning Administrator by any one (1) of the administrative heads of the town, or by at least five (5) residents of the town, charging that any dwelling or other structure is unfit for human habitation, or whenever it appears to the Zoning Administrator, (on his own motion) that any dwelling or other structure is unfit for human habitation, the Zoning Administrator shall, after preliminary investigation, attempt to make contact with the owner to discuss the nature of the violation(s) on their property and what steps would need to be taken to remedy said violation(s). If the property owner is responsive to such attempts, the property owner shall be given a ninety (90) day grace period to resolve the violation(s).

If after ninety (90) days no effort is made to correct the problem, a formal written notice from the Zoning Administrator will be issued to the property owner, giving them another ninety (90) days to correct the problem. The notice will inform the property owner of any fines that he or she may incur if no action is taken to correct the situation. The purpose of the two separate ninety day periods is to allow the property owner ample opportunity during a 6 month time frame to resolve violations before any penalties are imposed.

If, after the two ninety day periods outlined above have passed, the violation(s) have not been resolved, then the Zoning Administrator will issue and cause to be served upon the owner of and all parties of interest in such dwelling or other structure a complaint in letter format stating the nature of the violation and containing a notice that a hearing will be held before Town Council not less than ten (10) days nor more than thirty (30) days after the service of such complaint or letter; that the owner and parties in interest shall be given the right to file an answer to the complaint in letter and to appear in person and give testimony at the place and time fixed in the complaint; and that the rules of evidence prevailing in courts of law or equity shall not be controlling in such hearings. In the event an emergency arises whereby it appears that human life or safety is involved, the Zoning Administrator may shorten the notice of hearing to no less than one day.

Section 1.04 Posted Notice

- (a) if the repair, alteration, or improvement of the dwelling or other structure can be made at a reasonable cost in relation to the value of the dwelling or other structure, the owner shall be required within the time specified in such order, to repair, alter, or improve such dwelling or other structure to render it fit for human use or habitation or to vacate and close the dwelling or other structure as a human habitation; or
- (b) if the repair, alteration or improvement of the dwelling or other structure cannot be made at a reasonable cost in relation to the value as determined by Pickens County Tax Assessor of the dwelling or other structure (reasonable cost being not over 50% of the value), the owner then shall be required, within the time specified in the order, to remove or demolish such dwelling.

Section 1.05 Failure to comply

If the owner fails to comply with an order to repair, alter or improve or to vacate and close the dwelling, the Zoning Administrator may cause such dwelling to be repaired, altered or improved or to be vacated and closed; that the Zoning Administrator may cause to be posted on the main entrance of any dwelling so closed, a placard with the following words: "This building is unfit for human habitation; the use or occupation of this building for human habitation is prohibited and unlawful";

Section 1.06 Removal authority of town

Section 1.07 Lien upon property taxes

That the amount of the cost of such repairs, alterations, or improvements, vacating and closing, or removal, or demolition by the Zoning Administrator shall be a lien against the real property upon which such cost was incurred and shall be collectible in the same manner as municipal taxes.

Section 1.08 Nuisance abatement power of town

No part of this section shall be construed in any way to impair or limit any and all powers of the Town to define and declare nuisances and/or to cause their removal or abatement by summary proceedings or otherwise.

Section 1.09 Conditions constituting unfit dwellings/buildings

A dwelling or other structure is unfit for human use or habitation if conditions exist in such dwelling or other structure which constitute demolition by neglect, or are dangerous or injurious to health, safety or morals of the occupants of such dwelling, the occupants of neighboring dwellings or other residents of the town. Such conditions may include any of the following (without limiting the generality of the foregoing): defects therein increasing the hazards of fire, accidents, or other calamities; lack of adequate ventilation, light or sanitary facilities; dilapidation; disrepair; structural defects; uncleanness; and any other conditions in any reasonable way relating to the fitness for human use or habitation as previously set forth.

Section 1.10 Service of complaints

Complaints by letters or orders hereunder shall be delivered to and/or served upon such persons either personally or by certified mail, but if the whereabouts of such persons are unknown and cannot be ascertained in the exercise of reasonable diligence the Zoning Administrator shall make an affidavit to that effect; then the serving of such complaint or order upon such persons may be made by publishing it once each week for two (2) consecutive weeks in a newspaper printed and published in this area. A copy of such complaint or order shall also be filed with the Pickens County Clerk of Court and such filing of the complaint or order shall have the same force and effect as other notices provided by law.

Hearings shall be had by the Town Council on such petitions within twenty (20) days or as soon thereafter as possible and shall be given preference over other matters on Council's calendar. Town Council shall hear and determine the issues raised and shall enter such final order or decree as law and justice may require. Said Board shall consist of three (3) members, who shall be citizens of the Town of Six Mile and shall be appointed by the Six Mile Town Council for overlapping terms of three (3) years. Initial appointment shall be as follows: One (1) member for a term of three (3) years and two (2) members for a term of two (2) years. Any vacancy in the membership shall be filled for the unexpired term in the same manner as the initial appointment. Members shall serve without pay but may be reimbursed for any expenses incurred while representing the Board.

Article CVIII. Section 901. Proceedings of the Zoning Board of Appeals.

The Zoning Board of Appeals shall elect a chairman and a vice-chairman from its members who shall serve for one (1) year or until re-elected or until their successors are elected. The Board shall appoint a secretary, who may be a Town officer, an employee of the Town, or a member of the Board of Appeals. The Board shall adopt rules and bylaws in accordance with the provisions of this Ordinance and of the General Statutes of South Carolina, 1976 Code of Law, 1984 Cumulative Supplement, Title VI, Chapter 29, Section 780. Meetings of the Board shall be held at the call of the Chairman and at such other times as the Board may determine. All meetings of the Board shall be open to the public.

Article CIX.

Section 902. Decisions of the Zoning Board of Appeals.

The concurring vote of three (3) members of the Board of Appeals shall be necessary to reverse any order, requirement, decision or determination of the Zoning Administrator or to decide in favor of the applicant on any matter upon which it is required to pass under this Ordinance or to affect any variation of this Ordinance. The Board shall keep minutes of its proceedings, showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the Board and shall be a public record. On all appeals, applications and matters brought before the Board of Appeals, the Board shall inform in writing all the parties involved of this decisions and the reasons therefore.

Article CX. Section 903. Appeals, Hearing, and Notice.

Appeals to the Board may be taken by any person aggrieved or by any officer, department, board, or bureau of the municipality. An appeal from an administrative decision must be filed within 30 days after the decision becomes a matter of public record by denial of issuance of a permit or the filing of a written decision in the office of the Zoning Administrator. An appeal shall be filed by delivery of the approved appeal form with the officer from whom the appeal is taken and with the Board of Appeals notice of appeal specifying the ground thereof. The Zoning Administrator shall forthwith transmit to the Board all the papers constituting the record upon which the action appealed from was taken.

An appeal stays all legal proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the Board, after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate of stay would, in his opinion, cause imminent peril to life and property. In such case, proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board or by a court of record on application, on notice to the officer from whom the appeal is taken, and on due cause shown.

The Board shall fix a reasonable time for the hearing of the appeal or other matter referred to it, within thirty (30) days of when the appeal was filed, and give public notice thereof in a newspaper of general circulation in the community and post a sign on the property affected by the zoning appeal at least fifteen (15) days prior to the meeting, as well as provide notice to the parties in interest, and decide the same within a reasonable time. At the hearing, any party may appear in person or by agent or by attorney.

Article CXI. Section 904. Powers and Duties of the Board of Appeals.

The Zoning Board of Appeals shall have the following powers and duties:

- 904.1 To hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by the Zoning Administrator in the enforcement of this act.
- 904.2 To authorize, upon appeal in specific cases, a variance from the terms of the Ordinance as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of the Ordinance will, in an individual case, result in unnecessary hardship, so that the spirit of the Ordinance shall be observed, public safety and welfare secured, and substantial justice done. Such variance may be granted in such individual cases as unnecessary hardship upon a finding by the Board of Appeals that:
- a) there are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape, or topography;
 - b) the application of the Ordinance on this particular piece of property would create an unnecessary hardship;
 - c) such conditions are peculiar to the particular piece of property involved;

d) relief, if granted, would not cause substantial detriment to the public good or impair the purpose and intent of the Ordinance or the comprehensive plan, provided, however, that no variance may be granted for a use of land or building or structure that is prohibited in a given district.

904.3 To decide on other such matters where a decision of the Board of Appeals may be specifically required by the provisions of the Ordinance.

In exercising the above powers, the Board of Appeals may, in conformity with the provisions of this act: reverse or affirm wholly or in part, or may modify the order, requirements, decision, or determination; and, to that end, shall have all the powers of the officer from whom the appeal is taken and may issue or direct the issuance of a permit. The Board, in the execution of the duties for which appointed, may subpoena witnesses and in case of contempt may certify such fact to the circuit court in and for the County of Pickens.

Article CXII. Section 905. Appeals from Decisions of the Board of Appeals.

Any person who may have a substantial interest in any decision of the Board of Appeals may appeal any decision of the Board to the Circuit Court in and for the County of Pickens by filing with the clerk of such court a petition in writing setting forth plainly, fully, and distinctly wherein such decision is contrary to law.
