9. Monat Restyle Instant Sculpting Taffy – I have naturally wavy hair and love products that help me achieve tamed beach waves with minimal effort. This is one of those products. This taffy is full of ingredients that protect my hair from sun damage, pre mature thinning and scalp inflammation. It also has oils to help thicken hair naturally and keep it strong as can be! You just rub some between your palms and apply to sections. I usually apply some then scrunch my hair and define my waves with my fingers. (\$34)
