 - Laudatio: “Dr. Beorn’s research draws on an impressive array of archival and testimonial material, acquired during visits to Eastern Europe. His extraordinary book not only explores, in great detail and through use of examples, how the killers’ complicity grew over time, but it also analyzes the widespread myth of the Jewish Bolshevik partisan, propagated in order to inspire and legitimize the killings. Throughout the book, Dr. Beorn integrates evidence and reflection with notable fluidity, never avoiding the thorniest issues.”
