I. DATA AND ACCESS

SARC Data

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. Under the new Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

Additional Information

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- View this SARC online at the school and/or LEA Web sites.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Core Academic Classes Taught by Highly Qualified Teachers (School Year 2015-2016)

The Federal Elementary and Secondary Education Act (ESEA) of 2005-2006 requires that core academic subjects be taught by Highly Qualified Teachers (HQT), defined as having at least a bachelor’s degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. This table displays the percent of classes in core academic subjects taught by and not taught by Highly Qualified Teachers in the school, in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district. High-poverty schools are defined as those with student eligibility of approximately 40% or more in the free and reduced price meals program. Low-poverty schools are those with student eligibility of approximately 39% or less in the free and reduced price meals program. For more information, see the *Improving Teacher and Principal Quality* Web page at <http://www.cde.ca.gov/nclb/sr/tq>.

School Facility Conditions and Planned Improvements (Most Recent Year)

Warner has playground supervision before, during, and after school. All visitors are required to give advanced notice and report to the main office to sign-in and receive a visitor's badge while on campus. Classroom sizes and resources contribute to a positive environment. Comprehensive efforts are made to integrate recycling and environmental concerns into facilities as well as curriculum and instruction.

Warner School was established in 1940. Initially, it consisted of a single building. Today, the school district is unified as an elementary, middle and high school. There are a total of 24 classrooms, 20 of which are permanent buildings, and four portable buildings. The four portable buildings were constructed in 1996. Warner also has a cafeteria, a multi-purpose room, and two libraries; one for the high school and one for the elementary school. The high school campus school is equipped with a mechanic/wood shop, a science laboratory, and an agriculture facility. Warner Unified School District also has a district office.

Across the highway in the community park, there is a community resource center. Custodial, grounds keeping, and maintenance staff maintain the district's facilities in spite of limited resources. Classrooms, restrooms, the kitchen, and cafeteria are cleaned daily. The maintenance staff tries to prioritize school needs as best as possible. A system of work orders is utilized to maximize the efficiency of the staff. Beginning with the 2015-2016 school year, a full-time facilities position was established by the district to supplement the current maintenance staff in completing needed facilities repairs.

The state's School Deferred Maintenance Program, which provided state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components, became inoperative effective July 1, 2013. However, the district continues to make an annual contribution to support capital improvement projects, including deferred maintenance projects. For the current 2016-2017 school year, the district's governing board has not approved deferred maintenance projects for the school district but is in the process of taking inventory of deferred maintenance projects and updating its plan. When completed, the plan will then be available for review at the district office or on the Internet at www.warnerusd.net.

The Warner Unified School District has contracted with the San Diego County Office of Education (SDCOE) Facilities group to assist in prioritizing and implementing a Major Maintenance Plan and a Deferred Maintenance Plan. The District has recently replaced two roofs and has repaired an issue with gym flooring. Additionally, the flooring in both the Ag room and the Art room have been replaced in the past year. The Proposition 39 funding will help with some of the lighting and HVAC issues and the District will apply to the state for help in funding some of our larger projects.

IV. PUPIL OUTCOMES

State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Statewide Student Assessments

The Standardized Testing and Reporting (STAR) Program was last administered during the 2012-2013 school year. California's new statewide student assessment system, the California Assessment of Student Performance and Progress (CAASPP), was established January 1, 2014 and first administered during the 2013-2014 school year. The CAASPP comprises the following assessments:

- Smarter Balanced Summative Assessments for students in the general education population for English language arts/literacy (ELA) and mathematics given in grades 3 through 8 and 11;
- California Alternate Assessments (CAAs) for ELA and mathematics given in grades 3 through 8 and 11. The CAAs have replaced the California Alternate Performance Assessment (CAPA) for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards (CCSS) for students with significant cognitive disabilities; and
- Science assessments including California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA), in grades 5, 8, and 10.

Note on ELA and Mathematics tests: results include both the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Note on Science tests: results include CST's, CMA, and CAPA. The "Percent Proficient or Advanced" is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores.

Note on all tests: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. Double dashes appear (—) when the number of students tested is ten or less.
