TOKEN SWAP

8 - 18 DECEMBER 2017

Terms &
Conditions

Messaging Money

Most of us will be routinely sending money by instant message within 2 years

What's the problem?

There's no way to message crypto in an instant message

What's the solution?

Message crypto on all instant messaging platforms with a decentralized AI bot

Terms & Conditions

The following Terms and Conditions ("Terms") govern the swapping of Ethereum tokens ("ETH") for Tigereum Tokens ("TIG") (a "Swap") by participants ("Participants") in the token swap ("Token Swap") described in the Tigereum Whitepaper dated October 2017 ("Whitepaper")

IMPORTANT

Read this Whitepaper and these Terms before participating in the Token Swap. Be sure that you understand the contents of these documents, especially what they say about the risks of participating and restrictions on eligibility. Only participate if you are eligible. The Whitepaper and Terms & Conditions can be downloaded from Tigereum's website www.tigereum.io

IMPORTANT

This is not a solicitation for a security or investment and is not a promotion or offering of securities or financial product in any jurisdiction. Individuals, businesses, and other organizations should carefully weigh the risks, costs, and benefits of participating.

IMPORTANT

TIG is not a security or financial product. Ownership of TIG carries no rights express or implied. Swapping ETH for TIG is non-refundable. Participants should have no expectation of ownership in or influence over the governance of the Tigereum Project ("Tigereum") or over its founders, the core team, the Advisory Board or its manager Aero Cards Limited. By participating in this Token Swap, you expressly acknowledge and represent that you have carefully reviewed the Whitepaper and these Terms and fully understand the risks, costs, and benefits of Participating. You agree to be bound by these Terms. As set out below, you further represent and warrant that, to the extent permitted by law, you are authorized to Participate in TIG in your relevant jurisdiction, are of a legal age to be bound by these Terms, and will not hold Tigereum liable for any losses or any special, incidental, or consequential damages arising out of, or in any way connected to the Swapping of TIG, now or in the future. This applies to the Tigereum Project, its manager Aero Cards Limited and its founders, team members, advisors, affiliates, officers, directors, agents, joint venturers, employees and suppliers (the "Tigereum Team").

WARNING: DO NOT PARTICIPATE IF YOU ARE NOT AN EXPERT IN DEALING WITH CRYPTOGRAPHIC TOKENS AND BLOCKCHAIN-BASED SOFTWARE SYSTEMS.

Swapping TIG should be undertaken only by individuals, entities, or companies that have significant experience with, and understanding of, the usage and intricacies of cryptographic tokens, like ETH or Bitcoin ("BTC"), and blockchain based software systems. Participants should have functional understanding of storage and transmission mechanisms associated with other cryptographic tokens. While the Tigereum Team will be available to assist Participants, the Tigereum Team will not be responsible for lost ETH or BTC or TIG from actions taken by, or omitted by, Participants. Note, in particular, that Participants should take great care to write down their wallet password and not lose it so as to be sure that they will be able to access their TIG when it becomes available after the Swap. If you do not have such experience or expertise, then you should not Swap TIG or participate in the pre-sale of the Swap ("Pre-Swap").

WARNING: CRYPTOGRAPHIC TOKENS MAY EXPERIENCE EXTREME PRICE VOLATILITY.

TIG tokens do not represent any formal or legally binding investment. Cryptographic tokens that possess value in public markets, such as ETH or BTC, have demonstrated extreme fluctuations in price over short periods of time on a regular basis. A Participant should be prepared to expect similar fluctuations, both down and up, in any secondary trading of TIG. Such fluctuations are due to market forces and represent changes in the balance of supply and demand. Tigereum cannot and does not guarantee market liquidity for TIG and therefore there may be periods of time in which TIG is difficult to buy or sell. Additionally, due to different regulatory dictates in different jurisdictions and the inability of citizens of certain countries to open accounts at exchanges located anywhere in the world, the liquidity of TIG may be

markedly different in different countries and this would likely be reflected in significant price discrepancies. By Participating, you expressly acknowledge and represent that you fully understand that TIG may experience volatility in pricing and will not seek to hold any of the Tigereum Team liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected to, the Swap of TIG.

WARNING: SWAPPING ENTAILS RISKS

Swapping ETH for TIG carries with it a number of risks. Prior to Participating, you should carefully consider the risks listed below and, to the extent necessary, consult an appropriate lawyer, accountant, or tax professional. If any of the following risks are unacceptable to you, you should not Swap your ETH for TIG. By Participating, and to the extent permitted by law, you are agreeing not to hold any of the Tigereum Team liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected, to the Swapping of TIG, including losses associated with the risks set forth below.

WARNING: PROFESSIONAL INVESTORS ONLY

Given that Participating in this Token Swap involves a high degree of risk, only professional investors will be permitted to Participate. All Participants must be professional, sophisticated, accredited high net worth individuals with experience participating in blockchain and cryptocurrency projects. You must not participate if you do not satisfy these criteria.

TERMS AND CONDITIONS

1. Overview

Tigereum will cause to be created a quantity of TIG on its web site at <https://www.tigereum.io>. Participants will have an opportunity to Swap ETH for TIG. Participants will be granted Participant accounts on the Tigereum website that will enable them to Swap their ETH for TIG. All TIG will be created on the Ethereum networks, although there are no guarantees that this will occur within a given timeframe. TIG will be created on the Ethereum blockchain. Tigereum will allocate TIG to the corresponding Participant account on the Tigereum website, delivering it to the Participant's control.

2. Pricing

Based on the performance of other recent blockchain projects, Tigereum has determined that TIG may be partitioned and swapped at discount rates as this Token Swap proceeds (including during the Pre-Swap period). Full details about these discount rates will be provided in a timely manner to Participants and will be available on the Tigereum website throughout the Token Swap period.

3. Disclosure

To enable Participants to have as much information as possible to guide their decision-making process, Tigereum will disclose in real time the total ETH Swapped to enable Participants to develop an understanding of the size of the existing TIG/ETH Swap pool at the time of their Swap.

4. Tigereum Website Interface

Tigereum will maintain a store interface, which can be used to Swap TIG. The store interface will be available on the Tigereum website (<https://www.tigereum.io>). Instructions for Participating by using the store interface will be embedded and available for review on the Tigereum website during the duration of the Token Swap. Failure to follow these instructions may limit, delay, or prevent a Participant from obtaining TIG.

5. Eligibility

It is the responsibility of each potential Participant to determine if the Participant is eligible to legally Swap TIG in the Participant's jurisdiction.

6. Acceptance

By placing an order for an TIG Swap, the Participant:

- (i) consents and agrees to these Terms;
- (ii) represents and warrants that the Participant is legally permitted to Swap TIG in the Participant's jurisdiction;
- (iii) represents and warrants that the Participant is of a sufficient age to legally Swap TIG or has received permission from a legal guardian who has reviewed and agreed to these Terms;
- (iv) represents and warrants that the Participant will take sole responsibility for any restrictions and risks associated with the Swap of TIG as set out below; and
- (v) represents and warrants that the Participant has an understanding of the usage and intricacies of cryptographic tokens, like ETH or BTC, and blockchain-based software systems.

7. Receipt of TIG and the Swap Email

As part of the TIG Swap process, and in order to complete the Swap from ETH to TIG, a Participant will need to provide an email address (the "Swap Email"). The Swap Email will be used to email the Participant a notice of the creation of the Participant's account on the Tigereum website. By Participating, and to the extent permitted by applicable law, the Participant agrees not to hold any of the Tigereum Team liable for any losses or any special, incidental, or consequential damages arising out of, or in any way connected to, Participant's failure to secure that account.

8. TIG Only Available on the Tigereum Website

Tigereum will only Swap TIG through the Tigereum website at <https://www.tigereum.io>. To the extent that any third-party website or service offers TIG for swapping during the Token Swap or purports to facilitate a swap, sale or transfer of TIG in any way during the Token Swap, such third-party websites or services are not sanctioned by Tigereum and have no relationship in any way with Tigereum. Tigereum will not permit the use of any third-party websites or services for the Swap of TIG prior to the end of the Token Swap.

9. Fraudulent Attempts to Double Spend ETH

Tigereum will monitor all potential transactions for fraudulent attempts to double spend ETH. Any detected double spend of ETH will result in no TIG being delivered to the associated Participant.

10. Certain Risks Associated with the Swap of TIG

The Swap of TIG carries with it significant risk. Prior to Participating, the Participant should carefully consider the below risks and, to the extent necessary, consult a lawyer, accountant, and/or tax professionals prior to determining whether to Swap TIG.

- (i) It is possible that the value of ETH will drop significantly in the future, depriving Tigereum of sufficient resources to continue to operate.
- (ii) TIG will be stored in a wallet, which can only be accessed with a password selected by the Participant. If a Participant does not maintain an accurate record of their password, this may lead to the loss of TIG. As a result, Participants must safely store their password in one or more backup locations that are well separated from the primary location. In order to access one's TIG the password that the Participant entered is required; loss of this may lead to the loss of a Participant's TIG.
- (iii) Any third party that gains access to the Participant's Swap Email may be able to gain access to the Participant's TIG. The Participant must take care not to respond to any inquiry regarding their Swap of TIG, including but not limited to, email requests purportedly coming from the Tigereum website or a similar-looking domain.
- (iv) Cryptocurrencies have been the subject of regulatory scrutiny by various regulatory bodies around the world. Tigereum could be impacted by one or more regulatory enquiries

or regulatory action, which could impede or limit the ability to continue to develop the Tigereum project.

(v) It is possible that Tigereum's product will not be used by some instant messaging platforms, individuals, and other organizations and that there will be limited public interest in the use of Tigereum's solutions for messaging money. Such a lack of interest could impact the development of the Tigereum project. Tigereum cannot predict the success of its own marketing efforts or the efforts of other third parties. There is no guarantee of revenues or profits resulting from the marketing activities of the Tigereum Team.

(vi) The Participant recognizes that the Tigereum project is currently under development and may undergo significant changes before release. The Participant acknowledges that any expectations regarding the form and functionality of the Tigereum project held by the Participant may not be met upon its release, for any number of reasons including a change in the design and implementation plans and execution of the implementation of the Tigereum project.

(vii) The Participant understands that while the TigereumTeam will make reasonable efforts to complete the development, it is possible that an official completed version of the Tigereum project may not be released and there may never be an operational Tigereum product.

(viii) Hackers or other groups or organizations may attempt to steal the ETH revenue from the Token Swap, thus potentially impacting the ability of Tigereum to pursue the Tigereum project. To account for this risk, Tigereum has and will continue to implement comprehensive security precautions to safeguard the ETH. Multi-factor security measures will be taken to protect ETH including but not limited to physical elements, multi-signature keys, splitting of funds, hot/cold wallet partitioning and diversification. Moreover, regular security audits of hot and cold wallets will be conducted by internal and external teams.

(ix) Advances in code cracking, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies and the Tigereum project, which could result in the theft or loss of TIG. To the extent possible, Tigereum intends to update the protocol underlying the Tigereum project to account for any advances in cryptography and to incorporate additional security measures, but cannot it cannot predict the future of cryptography or the success of any future security updates.

(x) As with other cryptocurrencies, the Ethereum blockchain used for TIG is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, "selfish-mining" attacks, and race condition attacks. Any successful attacks present a risk to TIG and expected proper payment operations of Tigereum.

(xi) The loss or destruction of a private key by members of the Tigereum Team used to access may be irreversible. Tigereum Team's loss of access to its private keys or a data loss relating to TigereumTeam could adversely affect the value of Tigereum and TIG.

(xii) TIG is a developing new business, thus contributing to price volatility that could adversely affect the value of TIG. The factors affecting the further development of the digital assets industry, as well as Tigereum, include:

- (a) continued worldwide growth in the adoption and use of ETH, TIG other digital assets;
- (b) government and quasi-government regulation of ETH, TIG and other digital assets and their use, or restrictions on or regulation of access to and operation of the ETH, TIG or similar digital asset systems;
- (c) the maintenance and development of the software of the TIG token platform;
- (d) changes in consumer demographics and public tastes and preferences;
- (e) the availability and popularity of other similar products; and
- (f) general economic conditions.

(xiii) Intellectual property rights claims may adversely affect the operation of the Tigereum project. Third parties may assert intellectual property claims relating to the holding and transfer of digital assets and their source code. Regardless of the merit of any intellectual property or other legal action, any threatened action that reduces confidence in the Tigereum's long-term viability or the ability of end-users to hold and transfer TIG adversely affect the value of TIG. Additionally, a meritorious intellectual property claim could prevent end-users from accessing the TIG token platform or holding or transferring their TIG.

(xiv) Cryptocurrency exchanges on which TIG may trade may be relatively new and largely

unregulated and may therefore be more exposed to fraud and failure than established, regulated exchanges for other products. To the extent that the cryptocurrency exchanges representing a substantial portion of the volume in TIG trading are involved in fraud or experience security failures or other operational issues, such cryptocurrency exchange failures may result in a reduction in the price and can adversely affect the value of TIG. A lack of stability in the cryptocurrency exchanges and the closure or temporary shutdown of cryptocurrency exchanges due to fraud, business failure, hackers or malware, or government-mandated regulation may reduce confidence in TIG and result in greater volatility in the price.

(xv) Political or economic crises may motivate large-scale sales of TIG, which could result in a reduction in the price and adversely affect the value of TIG. Digital assets such as TIG, which are relatively new, are subject to supply and demand forces based upon the desirability of an alternative, decentralized means of transacting, and it is unclear how such supply and demand will be impacted by geopolitical events. Large-scale secondary sales of TIG would result in a reduction in the price.

(xvi) It is possible that a digital asset other than TIG could have features that make it more desirable to a material portion of the digital asset user base, resulting in a reduction in demand for Tigereum, which could have a negative impact on the use and price of TIG. It is possible that a comparable product could become materially popular due to either a perceived or exposed shortcoming of the Tigereum project that is not immediately addressed by the Tigereum Team, or a perceived advantage of a comparable product that includes features not incorporated into the Tigereum project. If this product obtains significant market share, it could have a negative impact on the demand for, and price of, TIG.

(xvii) TIG swaps and secondary sales are irrevocable and stolen or incorrectly transferred TIG may be irretrievable. As a result, any incorrectly executed TIG transactions could adversely affect the value of TIG. Cryptocurrency transactions are not, from an administrative perspective, reversible without the consent and active participation of the recipient of the transaction or, in theory, control or consent of a majority of the processing power on the host blockchain platform. Once a transaction has been verified and recorded in a block that is added to the blockchain, an incorrect transfer of TIG or a theft of TIG generally will not be reversible and there may be no compensation for any such transfer or theft. Such loss could adversely affect the value of TIG.

(xviii) TIG tokens will be issued on the Ethereum blockchain. As such, any malfunction or unexpected functioning of the Ethereum protocol may impact the Participant's ability to transfer or securely hold TIG. Such impact could adversely affect the value of TIG.

(xix) It is possible that, due to any number of reasons, including without limitation the failure of business relationships or marketing strategies, that the Tigereum project and all subsequent marketing of Tigereum may fail to achieve success.

11. Swaps of TIGEREUM are Non-Refundable

ALL SWAPS OF TIG ARE FINAL. SWAPS OF TIG ARE NON-REFUNDABLE. BY PARTICIPATING IN TIG, THE PARTICIPANT ACKNOWLEDGES THAT NEITHER TIGEREUM NOR THE TIGEREUM TEAM IS REQUIRED TO PROVIDE A REFUND FOR ANY REASON, AND THAT THE PARTICIPANT WILL NOT RECEIVE MONEY OR OTHER COMPENSATION FOR ANY TIG THAT IS NOT USED OR REMAINS UNUSED.

12. Taxation of TIG

Tigereum makes no representations concerning the tax implications of the Swapping of ETH for TIG or the possession of or use of TIG. The Participant bears the sole responsibility to determine if the Swap of ETH for TIG or the potential appreciation or depreciation in the value of TIG over time has tax implications for the Participant in the Participant's home jurisdiction. By Participating in this Token Swap, and to the extent permitted by law, the Participant agrees not to hold Tigereum or any of the Tigereum Team liable for any tax liability associated with or arising from the Swap.

13. Privacy

Although Tigereum requires that Participants provide an email address, and may require certain additional KYC and AML information, Tigereum will not publish any identifying

information related to Participants without the prior written consent of the Participant. Participants may be contacted by email by Tigereum regarding a Swap.

14. Disclaimer of Warranties

THE PARTICIPANT EXPRESSLY AGREES THAT THE PARTICIPANT IS PARTICIPATING IN THIS TOKEN SWAP AT THE PARTICIPANT'S SOLE RISK AND THAT A SWAP IS PROVIDED ON AN "AS IS" BASIS WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF TITLE OR IMPLIED WARRANTIES, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE (EXCEPT ONLY TO THE EXTENT PROHIBITED UNDER APPLICABLE LAW WITH ANY LEGALLY REQUIRED WARRANTY PERIOD TO THE SHORTER OF THIRTY DAYS FROM FIRST USE OR THE MINIMUM PERIOD REQUIRED).

15. Limitations of Liability

THE PARTICIPANT ACKNOWLEDGES AND AGREES THAT, TO THE FULLEST EXTENT PERMITTED BY ANY APPLICABLE LAW, THE DISCLAIMERS OF LIABILITY CONTAINED HEREIN APPLY TO ANY AND ALL DAMAGES OR INJURY WHATSOEVER CAUSED BY OR RELATED TO USE OF, OR INABILITY TO USE, TIG UNDER ANY CAUSE OR ACTION WHATSOEVER OF ANY KIND IN ANY JURISDICTION, INCLUDING, WITHOUT LIMITATION, ACTIONS FOR BREACH OF WARRANTY, BREACH OF CONTRACT OR TORT (INCLUDING NEGLIGENCE) AND THAT NEITHER TIGEREUM OR THE TIGEREUM TEAM SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY OR CONSEQUENTIAL DAMAGES, INCLUDING FOR LOSS OF PROFITS, GOODWILL OR DATA, IN ANY WAY WHATSOEVER ARISING OUT OF THE USE OF, OR INABILITY TO USE, TIG. THE PARTICIPANT FURTHER SPECIFICALLY ACKNOWLEDGES THAT NEITHER TIGEREUM NOR THE TIGEREUM TEAM IS LIABLE FOR THE CONDUCT OF THIRD PARTIES, INCLUDING OTHER PARTICIPANTS OF THIS TOKEN SWAP, AND THAT THE RISK OF PARTICIPATING RESTS ENTIRELY WITH THE PARTICIPANT. TO THE EXTENT PERMISSIBLE UNDER APPLICABLE LAWS, UNDER NO CIRCUMSTANCES WILL TIGEREUM OR THE TIGEREUM TEAM BE LIABLE TO ANY PARTICIPANT FOR MORE THAN THE VALUE OF ETH THAT THE PARTICIPANT MAY HAVE SWAPPED FOR TIG. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF CERTAIN WARRANTIES OR THE LIMITATION OR EXCLUSION OF LIABILITY FOR CERTAIN TYPES OF DAMAGES. THEREFORE, SOME OF THE ABOVE LIMITATIONS IN THIS SECTION AND ELSEWHERE IN THE TERMS MAY NOT APPLY TO A PARTICIPANT. IN PARTICULAR, NOTHING IN THESE TERMS SHALL AFFECT THE STATUTORY RIGHTS OF ANY PARTICIPANT OR EXCLUDE INJURY ARISING FROM ANY WILFUL MISCONDUCT OR FRAUD OF TIGEREUM OR THE TIGEREUM TEAM.

16. Dispute Resolution

(i) Tigereum and the Participant (the "Parties") agree to make good faith efforts to resolve any dispute, controversy or claim arising between them relating to this Token Swap and their respective rights and obligations hereunder arising under this Agreement (a "Dispute").

(ii) If the Parties, or their designated representatives, are unable to resolve the Dispute within ten (10) business days after referral of the matter to them, the Parties will submit the Dispute for resolution pursuant to paragraph (iii) of this clause.

(iii) Except with respect to Disputes concerning:

(a) the right of either Party to apply to a court of competent jurisdiction for an interim or interlocutory injunction or other provisional remedy to preserve the status quo or prevent irreparable harm, or

(b) any Disputes that may arise in connection with a breach of a Party's obligations of confidentiality hereunder,

if any Dispute is not resolved pursuant to paragraphs (i) and (ii) above, the Parties will, acting reasonably, agree mutually on the forum for resolution of the Dispute by arbitration as set out in this clause.

(iv) After the completion of the procedures set forth in paragraph (ii) and agreement by the Parties to enter into binding arbitration in accordance with paragraph (iii), either Party may within thirty (30) calendar days refer the Dispute to arbitration by serving written notice of its intention to arbitrate the Dispute to the other Party.

(v) The arbitration will be conducted by a single arbitrator to be mutually agreed to by the Parties within three (3) business days following the date of the referral of the Dispute to arbitration.

17. Force Majeure

Tigereum is not liable for failure to perform solely caused by: (i) unavoidable casualty, (ii) delays in delivery of materials, (iii) embargoes, (iv) government orders, (v) acts of civil or military authorities, (vi) acts by common carriers, (vii) emergency conditions (including weather conditions), or (viii) any similar unforeseen event that renders performance commercially implausible. If an event of force majeure occurs, the party injured by the other's inability to perform may elect to suspend the Agreement, in whole or part, for the duration of the force majeure circumstances. The party experiencing the force majeure circumstances shall cooperate with and assist the injured party in all reasonable ways to minimize the impact of force majeure on the injured party.

18. Complete Agreement

The Whitepaper and these Terms set out the entire understanding between each Participant and Tigereum with respect to the Swap of TIG. For facts relating to the Swap, the Participant agrees to rely only on the Whitepaper and the Terms and understands that they supersede any previous statements about the Token Swap made by Tigereum, the Tigereum Team or third parties, past and present and during the Token Swap. There are no warranties, representations, covenants, or agreements, express or implied, between the parties except those expressly set out in the Whitepaper and these Terms.

19. Severability

The Participant and Tigereum agree that if any portion of these Terms is found illegal or unenforceable, in whole or in part, such provision shall, as to such jurisdiction, be ineffective solely to the extent of such determination of invalidity or unenforceability without affecting the validity or enforceability thereof in any other manner or jurisdiction and without affecting the remaining provisions of the Terms, which shall continue to be in full force and effect.

20. No Waiver

The failure of Tigereum to require or enforce strict performance by the Participant of any provision of these Terms or Tigereum's failure to exercise any right under these agreements shall not be construed as a waiver or relinquishment of Tigereum's right to assert or rely upon any such provision or right in that or any other instance. The express waiver by Tigereum of any provision, condition, or requirement of these Terms shall not constitute a waiver of any future obligation to comply with such provision, condition or requirement. Except as expressly and specifically set forth in these Terms, no representations, statements, consents, waivers, or other acts or omissions by Tigereum shall be deemed a modification of these Terms nor be legally binding, unless documented in physical writing, hand signed by the Participant and a duly appointed officer, employee, or agent of Tigereum.

21. Updates

Tigereum reserves the right, at its sole discretion, to change, modify, add, or remove portions of the Whitepaper or these Terms at any time during the Token Swap by posting the amendments on the Tigereum website (<https://www.tigereum.io>) prior to the opening of the Token Swap. Any Participant will be deemed to have accepted such changes by Participating. If at any point you do not agree to any portion of the then-current version of the Whitepaper or Terms, you should not Swap TIG.

22. US Participant Restriction

If a Participant is a citizen, tax resident or greencard holder of the United States of America ("US Participant"), he/she shall not be entitled to participate in this Token Swap.

23. Australia Participant Restriction

If a Participant is a resident of Australia ("Australian Participant"), he/she shall not be entitled to participate in this Token Swap.

24. UK Participant Restriction

THE MARKETS IN FINANCIAL INSTRUMENTS DIRECTIVE DO NOT PROTECT PARTICIPANTS IN THIS TOKEN SWAP, AND IT DOES NOT NECESSARILY INCLUDE COMPLIANT REGULATORY PROSPECTUS DIRECTIVE RISK DISCLOSURES. PRIVATE PLACEMENTS CAN BE VERY RISKY, AND ANY INVESTMENT MAY BE DIFFICULT, IF NOT VIRTUALLY IMPOSSIBLE TO SELL.

25. Number of Participants

Tigereum reserves the right to restrict the number of Participants in any particular country if necessary to comply with local laws.

26. Cooperation with Legal Authorities

Tigereum will cooperate with all law enforcement enquiries, subpoenas, or requests provided they are fully supported and documented by the law in the relevant jurisdictions. Tigereum will endeavour to publish any legal enquiries upon receipt.

27. Participant Checks

Participants may be required to provide KYC, AML and professional investor information. They will be warned to familiarise themselves fully with Tigereum's risk disclosures. They will be advised to seek professional advice.

For further information regarding the Terms & Conditions, please email tokenswap@tigereum.io
