BIOGRAPHY

Jim Kellner was born and raised in Central California where he dreamed of becoming a famous actor. So of course he moved to... Seattle? Not the first choice for many actors but he eventually began getting roles on stage and screen before trying his comedic skills at an open mic at Seattle's legendary, Comedy Underground where he bombed terribly - again and again and again. And then he got funny.

After finally crafting 30 minutes of funny material he began touring the Northwest as a feature act playing bars, casinos, and comedy clubs. Years earlier Jim had studied hypnosis, something he'd been fascinated with since he was a teenager, when he once tried to hypnotize his little sister with a library book. Unfortunately, young Jim's room remained UN-cleaned...

Putting the power of hypnosis together with his background in stand-up comedy, Jim Kellner's 'Mental Magic Comedy Hypnosis Show' has become a crowd favorite. Jim is clever, quick on his feet, and professional.

Every comedy stage hypnosis show is unpredictable, unique, and interactive. Jim currently resides in sunny AND dry Phoenix, AZ.
