

QUALITY AIRCRAFT TOOLING, INC

High Quality Commercial Aircraft Tooling and Ground Support Equipment

**Quality Products,
Quality Service,
Quality Aircraft Tooling!**

About Us

Quality Aircraft Tooling (QAT), together with our Aero Info division, customizes and manufactures high quality specialized aviation/aerospace electronic and mechanical tooling, engine handling, electronic test equipment, and ground support equipment (GSE) for commercial and U.S. military jet aircraft. Further, our expertise is offered to Evaluate, Calibrate, Troubleshoot, Upgrade, Repair and Test all GSE with an available manufacturer's drawing.

We manufacture thousands of products for the entire Boeing fleet; products for Airbus, Fokker, British Aerospace and others; in addition to products for Rolls-Royce, Pratt & Whitney and GE engines. QAT is a licensed GSE supplier. We customize and manufacture avionics shop/bench test, and line maintenance electronic/electro-mechanical test equipment both analog and digital, and provide test, repair, and calibration services for all products. We engineer tailored solutions to meet our customers' unique needs in addition to offering proprietary solutions to reduce maintenance downtime. Our products are used by commercial airlines, the military, and the general aviation industry world-wide.

Almost Five Decades of Commitment, Quality, and Customer Satisfaction

QAT was formed in 1969 and Aero Info in 1970 providing premium quality tooling at competitive prices, delivered with unsurpassed customer service. We joined forces in 2003 to expand our capabilities. QAT and Aero's commitment and expertise helps to ensure the safety of over 800 million air travelers each year. Customers rely on and value QAT for being a GSE licensed manufacturer and a key supplier of many proprietary custom products, services, and solutions.

As important as quality is to the products and services we provide, QAT and Aero Info are nothing without our quality staff. Our employees take pride in everything they do. They are highly trained, experienced, certified, skilled and are committed to delivering excellence in our products and services, while also delivering outstanding customer service.

Quality Aircraft Tooling, Inc. has an agreement with The Boeing Company for the acquisition of products and services; and we have been granted license rights to use Boeing proprietary data for the sale of products or services in support of all commercial Boeing Aircraft.

Products & Services

NEW BUILDS

- Mechanical Tools
- Web and Cable Slings
- Hoist Assemblies
- Adapter Assemblies
- Beam Assemblies
- Auxiliary Power Unit Carts
- Bench Test Equipment
- Line Maintenance Test Equipment
- Mechanical & Electronic GSE
- Customer-designed Equipment

UNIQUE & PROPRIETARY

- Ram Air Turbine Guards
- Specialty Wrenches
- Lockdown Pins
- Position Transmitter Test Set
- QAT-Engineered Solutions

REPAIRS & UPGRADES

- Tool Change Bulletin Upgrades
- Out of Service Tool Evaluation
- Repair Cost Determination

SPECIALITY ITEMS & KITS

- Engine Stands
- Engine Change Kits
- Heat Exchanger Kits
- Landing Gear Removal / Installation Kits
- Pressure Testing Kits
- Equipment Kits built to Customer Specs

ADDITIONAL SERVICES

- Proof-Load Testing and Certifications
- Mechanical Testing and Certifications
- Electronic Testing and Certifications
- Calibrations and Certifications

LOCATION

1048 King Industrial Drive
Marietta, GA 30062
Telephone: 770-429-8157
Email: QAT@QAT.Aero

QAT's Quality Commitment

At QAT and Aero Info, controlling the quality of your order is a serious matter. We carefully cross-check engineering drawings and create build lists to ensure that nothing is out of date – we will never ship an obsolete part. We have Quality Assurance procedures in place that ensure consistent and accurate builds. Certificates of Conformance, Traceability and Proof-loads, as appropriate, are provided with each order.

*Our guarantee is simple – If you're not happy, we're not happy.
Just let us know and we will make it right!*

The Future

In 2017 QAT and its Aero Info division were acquired by AIM27, Inc., with the goal of expanding the market share of the company to new customers world-wide, while maintaining the high- standards of quality and service that have become the hallmark of QAT. To that end, QAT is enhancing its production capabilities with new state-of-the-art equipment that will complement our craftsmen's work while improving turnaround time for orders and reducing costs. In turn, the benefits of this advanced technology will be shared with our customers.

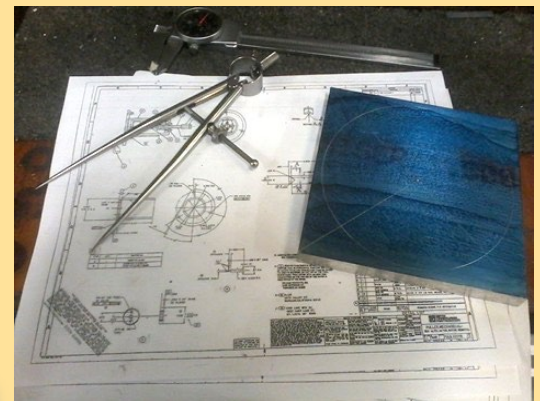

Serving the aviation industry for almost 50 years!
