

LE MUSEE DES ARTS ASIATIQUES

NICE

«Feet in water»

The Museum: Placed amidst scents and greenery, the Asian Arts Museum and built on the park's lake, giving the illusion of floating on the water. The architectural aesthetic of the Museum rests on the contrasts of solid forms and transparent walls.

Exterior: The white marble covering the walls of the Museum gives it an appearance of robustness while the parts of glass concede to it the lightness.

For more than 25 years, Pavillon Traiteur has grown steadily thanks to its professional teams, its visionary talent and its logistics, which has allowed it to organize multiple receptions and events in the South of France.

ADVANTAGES

- Privatization
Exceptionnal setting of a museum built on water
- Art works
- Guided Tour
- Parking nearby
- Beachfront view
- Open all year
- Facing Nice Airport
