ABOUT US

Here at Engineeringfullstop we are dedicated to producing quality. We have years of combined experience in welding. The team at Engineeringfullstop can assist you with any aspect of your project needs. At Engineeringfullstop we pride ourselves on our service and quick turn-around times. With a skilled and enthusiastic team we can accomplish this, therefore pleasing our customers. We take the time to truly understand what you're looking for and guarantee only the best service and products.

OUR SERVICES

Engineeringfullstop provides an excellent service in manufacturing and installing a range of fabricated products made from high-quality New Zealand steel, further guaranteeing that lifetime protection. Some examples of what we can do:

- House and light commercial beams
- Quality trailers
- Skip and waste-handling bins
- Outstanding quality welding and fabrication services both onsite and workshop
- Seismic strengthening
- General engineering

Give us a call today and we will sort your needs!
