Earthscapes is spread across two studios:
Ahmedabad and Mumbai, each headed by a
principal landscape architect cum director
and working independently.

We have a staff of 12 in Ahmedabad and 5 in
Mumbai with four full time ISOLA accredited
landscape architects. Our offices are
equipped with the latest computer systems
having centralized cloud backup and genuine
software.

Our projects range across Bihar, Gujarat,
Karnataka, Maharashtra, Rajasthan and
Telangana. We have organized workflow with
inhouse facilities for drawing management,
tender process and specification systems.

Ankit Gems HQ

Project Details**Client**

Ankit Gems Ltd

Location

Surat, India

Area

8000 sqm

Date

2015

About:

Ankit Gems Pvt. Ltd. is a premier diamond processing & export house with its factory in Surat. The company wants to present a cutting edge ideologies being developed at the factory cum research unit. The landscape takes inspiration from the client's imaging process of taking a raw material and making an aesthetic art piece from it.

The landscape is a series of mounds rising in height as one views them from the entrance. The mounds are clad with natural stone at various locations and give a feeling of arising from the ground with the stone. The landscape becomes a journey with integrated seating wherein many a small get-togethers, brainstorming sessions and solitary thinking can be realized.

Scope of work :

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.

Project Details**Client**

Lemon Technomist P Ltd

Location

Surat, India

Area

8000 sqm

Date

2011

About:

The landscape of LTM & LSM Factory, Surat is an attempt at land-art. The client brief was to create a forest as well as demonstrate the cutting edge technologies being developed at the factory cum research unit. The landscape takes inspiration from the client's imaging process of taking a raw material and making an aesthetic art piece from it. The landscape is a series of mounds rising in height as one views them from the entrance. The mounds are clad with natural stone at various locations and give a feeling of arising from the ground with the stone. The landscape becomes a journey with integrated seating wherein many a small get-togethers, brainstorming sessions and solitary thinking can be realized.

Scope of work :

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.

Shairu Gems HQ

Project Details

Client

Shairu Gems Ltd

Location

Surat, India

Area

2500 sqm

Date

2011

About:

The landscape of Shairu Gems factory, Surat is an attempt at creating natural spaces where no space exists. The geometry of the landscape takes inspiration from the gems polishing activity of the factory and is manifested through natural stone patterns in different kinds of finishes. The landscape rises from the ground and climbs onto the building facade, creating an entire aesthetic display and ecosystem on the vertical walls and higher levels where space is available.

Scope of work :

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.

Alok Impex HQ

Project Details

Client

Alok Impex P Ltd.
