#ChillCafe

Chill Café was born as an answered prayer, a powerful Novena to St Joseph, at a time when the Western world flirted with the most serious economic crises since the Great Depression. Whilst Australia largely escaped the worst of The Global Financial Crises, FNQ experienced a dramatic slowdown in tourism, and our unemployment rate was the worst in the country, nudging 15%.

With this backdrop and the support of my loving wife Manuela, my father in law Corrado and I built Chill Café. We opened Christmas Eve 2009, it was a massive gamble, and somehow we survived that first day, not before our juicer blew up, unloading beetroot and carrot pulp from floor to ceiling, leaving my mother in law Bruna resembling something like a forlorn cartoon figure!

Whilst things slowed alarmingly over the coming months, Chill Café was always an opportunity for us to step out in faith, and by our Heavenly Father's grace, we survived those really tough first years, with the quality of our caring staff always separating us from our competition. Chill Café staff has always blown me away, and I hope your experience today is elevated by the quality of our energetic and caring team.

Today, The Moore Group stands as a proud employer of 60+ staff (Adjacent Portofino was bought 3 years ago), and we continue to pursue hospitality excellence by the beachfront, within our unique cultural and pristine environmental setting allowing us to place the guest experience as our driving focus.

Thankyou for your support, and on behalf of our team, we wish you a happy and enjoyable experience at Chill Café.

Tony and Manuela Moore

### Quick Fact:

Activated charcoal is a potent natural treatment used to trap toxins and chemicals in the body, allowing them to be flushed out so the body doesn't reabsorb them. At Chill Café we use activated charcoal made from coconut shells.

### Quick Fact:

Turmeric contains a wide range of antioxidant, antiviral, antibacterial, anti fungal, anti carcinogenic, antimutagenic and anti-inflammatory properties. It is also loaded with many healthy nutrients such as protein and dietary fibre.
