JEREMIE HAITI PROJECT

GRANT APPLICATION

$500 GRANTS FOR CLEAN WATER FUNDS

The Jeremie Haiti Project has grant monies available for teams going into the Jeremie area who would like to provide water filters and training to settlements around Jeremie.

The grants are for clean water projects that meet the requirements below. These have been established to maintain an efficient and consistent program. Serge Severe, JHP's project manager must supervise each training since he has the necessary knowledge, contacts and experience to maximize our Clean Water efforts. The training takes place over three days. Thirty women per day can be trained to use the Water Filter/bucket. They then share clean water with 3 neighboring families to multiply the number of women and children who will have access to clean drinking water. Serge knows the geographical areas of greatest need so we count on his leadership. Serge's community contacts are a necessary component in getting the word out in advance of each training so we need at least 3 months advance notice.

Clean Water Project parameters

Each team is responsible for supplying the following items. These are estimated costs, which may increase if the location is remote or items must be purchased from different sources. Grants of $500 are available to cover part of the costs. Teams are responsible for matching funds and organizing the effort.

- 90 Business Connect Village Water Filters (sourced through Terrie Eisenmann) 90 x $18 each = $1,620
- Water filter shipping and handling to Michigan (teams provide shipping to Haiti as baggage) approx. $40
- 90 water buckets (contact Terrie regarding sourcing), 90 x approx. $5.00 each = $450
- 2 Trainers, each working three days. $240 total cost
- Trainer/materials transportation (vehicle & fuel) estimated minimum cost $110
- Total estimated project cost $2,460.
- Less $500 JHP grant = $1,960 net cost.

Application form and instructions are on the next page.

Deadline: 3 months prior to date of departure
