

## LEO

THE MOST COMPACT AND GENIAL ROBOTIC PALLET WRAPPER  
IN THE WORLD

...IT'S THE MACHINE  
THAT GOES TO THE PALLET!

### LITTLE THANKS TO

- *RESTRICTED WORKING AREA*
- *COMPACT OVERALL DIMENSIONS AND REDUCED WEIGHT*
- *MAINTENANCE FREE*

### GREAT THANKS TO

- *HIGH QUALITY STANDARDS*
- *HIGH FUNCTIONALITY*
- *HIGH PERFORMANCES*

## FEATURES

### **ELECTRIC MANOEUVRING SYSTEM** PAT

*Reduces the working area even more in comparison with most robots*

### **FIXED MAST**

*Maximum pallet-wrapping height: 2000 mm*

### **MICROPROCESSOR LOGIC BOARD** PAT

*6 different pre-programmable memorized settings*

### **MECHANIC BRAKE**

*for film tension regulation*

### **"MAINTENANCE-FREE" AND SEALED BATTERIES**

*no fill - recharged from standard 240 Volt power supply*

### **REDUCED OVERALL DIMENSIONS AND WEIGHT**

*Approximately 50% less than most robots*

### **EASY SHIPPING**

*No parts to be assembled, ready to work*

*Patented electric manoeuvring system*

*Regulation of the film tension through mechanic brake*

*Overall indicative dimensions: 1150 x 780 x 1950 mm*

*Power supply with 2 gel sealed batteries, maintenance-free*

*Power supply (for battery charge) 240 V single-phase*

*Film carriage speed: adjustable*

*Maximum wrapping height: 2000 mm*

*Min pallet dimensions: 600 x 600 x 650 (h) mm*

*Max pallet dimensions: without limit*

*The pallet-wrapping robot which needs the narrowest area to work*
