Key Terminology

Platform Shifting

Applications, Process and execution has to be conducted on a platform. Advantage is the monitoring of your activity as a whole. Because the safety of your documents is no more in the bank instead in the platform.

BPOS

Business Process Oriented Solutions. Matching with your Business. We use an IT framework allowing us to create the tailored business core module that will implement the Process identified in your activity. We identify and optimize the process with in mind the Economic Aspects but also the IT Best-Practice.

Decentralized Apps

In the *BPOS* that we create, some transaction in identified process need to be externalized and become itself Decentralized App. A Decentralized App self-execute as a “Contract” with conditions to fulfill. The result of the Decentralized App is monitored by the Proprietary Platform.

Proprietary Platform Ecosystem

Our Platform is based in a Swiss Data Center. NovaCrypto LLC give you the best Ecosystem constituted of actors. Actor is an experimented Partner in his field of competency and operating on the platform. NovaCrypto LLC by using his platform acts as a coordinator of the whole solution implemented.

Data Governance

A set of defined rules stored on our Platform. Data Governance can't be conducted without a Platform. Since a BPOS execute on the platform, the entire process in each BPOS is monitored as an “ACID” (Atomicity, Consistency, Isolation, Durability) transaction.

Fill the gap

We link the BPOS of the Centralized Business World with the Decentralized World.

Define Uses-Cases

The “Why, How, What” to implement a BPOS fully integrated which fit your needs. By defining the managing rules and Scenarios (Uses-Cases) we ensure the project management success for any actor B2B or B2C.

Acts as an EOS Node

NovaCrypto acts as an EOS on the MainNet or in his Sidechain.

Whyology

Why

- We believe in *Platform Shifting*, we want to help any kind of actors B2B or B2C to start their Business and Invent their future.

How

- We provide integration, consulting, advisory in the crypto sphere.

What

- We do programming of *Decentralized Apps using Proprietary Platform Ecosystem* with legal compliance *Data Governance*.

About

- NovaCrypto LLC is a Swiss Company founded in February 2018.
- Our Core Team is constituted of a Software Engineer / Founder
- Strength is the knowledge of the Business and of the IT best-practice.
- Design and develop *BPOS* (Business Process Oriented Solutions) in IT field with integration between the Centralization needs and the Decentralization profits.
- Ecosystem actors such as : Real estate, Insurance, Network & Telco.
- We use a framework to build tailored BPOS.
- Languages : English, French, Spanish

Roadmap

- Marketing : corporate website, executive summary, channel setup
- Platform Integration : APIs, Stellar, EOS, Bitcoin Blockchain, SPV
- Project Management : Define uses-cases and Customers/partnerships
- Modular Development : Uses-cases review, prototyping BPOS, Develop BPOS

We follow an iterative approach in our organization on those 4 aspects (Marketing, Platform Integration, Project Management, Modular Development).

Social Network

- Steemit, Youtube, LinkedIn

Value Proposition

- We design Swiss Made online secure Decentralized Apps supporting decentralized Blockchain technologies using a *Proprietary Platform Ecosystem* with legal compliance *Data Governance*.
- Because the safety of your documents is no more in the bank instead in the platform.

Positioning

- NovaCrypto *fill the gap* between Centralized Business World and the Decentralized World. We provide a *Proprietary Platform Ecosystem* with Business Process Oriented Solutions (*BPOS*) running with the right legal compliance data governance.
- NovaCrypto *define Use-Cases* with Centralization and if expected Decentralization of the identified Process, Transaction to distribute on the most suitable Blockchain.
- NovaCrypto *acts as an anchor* in Crypto Market Swiss & International to exchange FIAT currency or Digital currency without any third-party institution. Instead by using the power of decentralized autonomous organization (DAO).

Vision

- NovaCrypto wants to enrich his Platform Model Ecosystem with the most suitable Business Partners and Technologies Partners in order to do the best Integration with the most suitable Blockchain identified for our projects.

Technologies

- The Centralization occurs on our *Proprietary Platform Model Ecosystem* where we could also act in the Decentralized mode.
- Our Platform is used as a Service (PaaS) giving to the customer a secure access point to their BPOS and the Data Governance is ensured by the platform.
- We do interface and integration with decentralized platform with a high potential to perform, such as :
 - _EOS Smart Contracts
 - _Stellar Smart Assets
 - _SIA Storage Network
 - _Ethereum Smart Contracts

Proprietary Platform Ecosystem

Our Platform is based in a Swiss Data Center. NovaCrypto LLC give you the best Ecosystem constituted of actors. Actor is an experimented Partner in his field of competency and operating on the platform. NovaCrypto LLC by using his platform acts as a coordinator of the whole solution implemented.
