

CASTLEGATE™ DOOR SYSTEM

FEATURING MASONITE®

HOW MUCH ARE YOUR DOORS COSTING YOU?

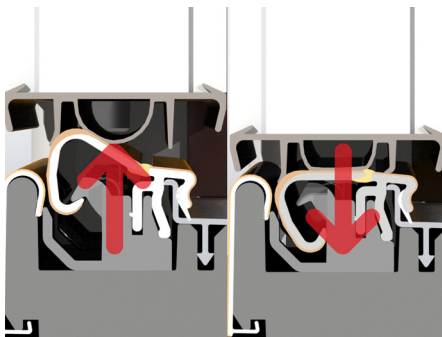

Let's face it: the real world isn't perfect. Imperfect site conditions. Labor scarcity. Improper sill adjustment – it all adds up, leading to time waste, performance issues and costly service calls for you. How much are your doors really costing you?

YOUR COSTS DON'T STOP AT THE DOOR.

- ▶ **1.5 Hours:** the average time of a service call
- ▶ **\$50:** the average hourly rate for service labor
- ▶ **16.5%:** the average number of doors with service calls
- ▶ **3%:** the average number of doors with 2 or more service calls
- ▶ **\$68:** the average avoidable cost PER DOOR builders are wasting on inefficient and subpar components

While \$68 may not seem like a big deal – it all adds up. Every time you and your staff deal with these service issues you are wasting time, one of your most valuable assets, and if your customer is involved, it may be affecting your credibility. These costs are completely avoidable.

CASTLEGATE™ DOOR SYSTEM — ENGINEERED FOR THE REAL WORLD.

The real world will never be perfect. But with the CastleGate Door System Powered By Endura components, it's not your problem to pay for anymore. Each system is designed to automatically address common issues, making your job easier and your wallet fatter.
