► Frequently Asked Questions

Why should I provide a digital onboarding feature?

Your customers expect you to, and processing costs for your operations are significantly lower when using an end-to-end digital process.

Why should I outsource my digital customer onboarding to you?

FINOLOGEE offers scalability, is a specialist in digital product, interfaces and experience, continuous optimisation, best-in-class external products, SLAs and is able to move very fast.

Who are you?

FINOLOGEE is an entrepreneur-run and owned company founded in 2017 by the DIGICASH mobile payment system's founders. We are based in Luxembourg. We are part of a group of companies that provides high-end digital services and runs critical transactional platforms in Luxembourg since 2004.

Do you keep end-customer data?

We don't store end-customer data beyond a session/transaction unless you explicitly request us to keep it.
