

REFRESHING IDEAS TO DEVELOP

YOURSELF

- on a daily basis -

READ

Read books, articles, journals. Why inventing the wheel, instead of improving/replacing it? There are so many great mentors sharing their knowledge for just a few pennies.

LISTEN

Listen to podcasts. Hello, educational audio during your formerly ineffective time in the car. Traffic jams can be inspiring after all.

TALK

Stop the 'I am doing this on my own' show. Otherwise, you won't live long enough to utilize your genius. There are so many knowledgeable people on this planet. Find the right coach as soon as a topic slows you down. Learn, pay for this efficient quality and accelerate.

GOAL-SET-MATCH

Set your ultimate goals, cut them into tiny chunks and accomplish one of them each week.

USE FEEDBACK TO CHANGE

In order to change, you need to open up for feedback. Stop experiencing it as an 'attack'. Your qualities will not become any better if you keep shutting down the magic opportunities passing by.

MUSE

Great ideas pop up when there is space for them. Daydreaming does not occur when you are focused on your daily operation. Plan a weekly contemplation.

COMMUNITY MATTERS

You become like the people you spend the most time with. Gather some authentic and sincere masterminds as (business) friends. LinkedIn, Instagram, it has been made so easy to find the ones compared to the challenging trips people made hundreds of years ago. Want to be part of my community? Contact me!
