Skincare

Your wedding is likely going to be the most photographed day of your life which means you want to look your best! Yes, we can cover up redness and small blemishes with makeup but overall, the makeup you put on will only look as good as the skin underneath. It is extremely important that you are taking great care of your skin and adopt a good skincare regimen both at home and through professional treatments. We will discuss a custom treatment plan leading up to your wedding even if you are out of state or can't make it in studio! We always recommend scheduling regular appointments with us and one appointment with 1-3 days before the wedding to make sure your skin is hydrated, smooth and bright!
